Independent Auditors' Review Report

To the Board of Directors of Taisun Enterprise Co., Ltd.:

Introduction

We have reviewed the accompanying consolidated balance sheets of Taisun Enterprise Co., Ltd. and its subsidiaries as of June 30, 2022 and 2021, and the related consolidated statements of comprehensive income for the three months and six months ended June 30, 2022 and 2021, as well as the changes in equity and cash flows for the six months ended June 30, 2022 and 2021, and notes to the consolidated financial statements, including a summary of significant accounting policies. Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, " Interim Financial Reporting" endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China. Our responsibility is to express a conclusion on the consolidated financial statements based on our reviews.

Scope of Review

Except as explained in the Basis for Qualified Conclusion paragraph, we conducted our reviews in accordance with Statement of Auditing Standards 65, "Review of Financial Information Performed by the Independent Auditor of the Entity". A review of the consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the generally accepted auditing standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Qualified Conclusion

As stated in Note 4(b), the consolidated financial statements included the financial statements of certain non-significant subsidiaries, which were not reviewed by independent auditors. These financial statements reflect total assets amounting to $185,452 thousand and $188,964 thousand, constituting 1.81% and 1.77% of consolidated total assets as of June 30, 2022 and 2021, respectively, total liabilities amounting to $82,470 thousand and $76,996 thousand, constituting 2.39% and 2.34% of consolidated total liabilities as of June 30, 2022 and 2021, respectively, and total comprehensive income amounting to $(737) thousand, $1,112 thousand, $(1,196) thousand and $2,891 thousand, constituting (0.56)%, 0.70%, (0.43)% and 0.88% of consolidated total comprehensive income for the three months and six months ended June 30, 2022 and 2021, respectively.

Furthermore, as stated in Note 6(g), the other equity accounted investments of Taisun Enterprise Co., Ltd. and its subsidiaries in its investee companies each amounted to $4,652 thousand as of June 30, 2022 and 2021; and there were no equity in net earnings on these investee companies for the three months and six months ended June 30, 2022 and 2021. Both of the above transactions were recognized solely on the financial statements prepared by these investee companies, but not reviewed by independent auditors.

KPMG, a Taiwan partnership and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee.

Qualified Conclusion

Except for the adjustments, if any, as might have been determined to be necessary had the financial statements of certain consolidated subsidiaries and equity accounted investee companies described in the Basis for Qualified Conclusion paragraph above been reviewed by independent auditors, based on our reviews and the review reports of other auditors (please refer to Other Matters paragraph), nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of Taisun Enterprise Co., Ltd. and its subsidiaries as of June 30, 2022 and 2021, and of its consolidated financial performance for the three months and six months ended June 30, 2022 and 2021, and its consolidated cash flows for the six months ended June 30, 2022 and 2021 in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, "Interim Financial Reporting" endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

Other Matters

We did not review the financial statements of associates, which represented investments in other entities accounted for using the equity method. Those financial statements were reviewed by other auditors, whose review reports have been furnished to us, and our conclusion, insofar as it relates to the amounts included for associates, is based solely on the review reports of other auditors. The investments in associates accounted for using the equity method amounting to $3,422,465 thousand and $3,536,845 thousand, constituting 33.46% and 33.19% of consolidated total assets as of June 30, 2022 and 2021, respectively, and the related share of profit of associates accounted for using the equity method amounting to $96,342 thousand, $87,512 thousand, $151,322 thousand and $175,478 thousand, constituting 69.98%, 63.67%, 51.42% and 54.49% of consolidated total profit before tax for the three months and six months ended June 30, 2022 and 2021, respectively.

The engagement partners on the reviews resulting in this independent auditors' review report are Hsin-Ting Huang and Kuo-Yang Tseng.

TAISUN ENTERPRISE CO., LTD. AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

June 30, 2022 and 2021

(Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)

(1) Company history

Taisun Enterprise Corporation (the "Company") was established on October 21, 1960 in Taiwan, the Republic of China, with the approval of the Ministry of Economic Affairs. Its registered office is located at No. 6, Xinggong Rd., Tianzhong Township, Changhua County.

The consolidated financial statements of the Company as of June 30, 2022 and 2021 comprised the Company and its subsidiaries (together referred to as "the Group").

The major business activities of the Company and its subsidiaries (the "Group") are the manufacturing and sales of cooking oil, food, beverages and aquafeeds.

(2) Approval date and procedures of the consolidated financial statements:

The consolidated financial statements were authorized for issuance by the Board of Directors on August 11, 2022.

(3) New standards, amendments and interpretations adopted:

(a) The impact of the International Financial Reporting Standards ("IFRSs") endorsed by the Financial Supervisory Commission, R.O.C. which have already been adopted.

The Group has initially adopted the following new amendments, which do not have a significant impact on its consolidated financial statements, from January 1, 2022:

- Amendments to IAS 16 "Property, Plant and Equipment—Proceeds before Intended Use"
- Amendments to IAS 37 "Onerous Contracts－Cost of Fulfilling a Contract"
- Annual Improvements to IFRS Standards 2018–2020
- Amendments to IFRS 3 "Reference to the Conceptual Framework"

(b) The impact of IFRS issued by the FSC but not yet effective

The Group assesses that the adoption of the following new amendments, effective for annual period beginning on January 1, 2023, would not have a significant impact on its consolidated financial statements:

- Amendments to IAS 1 "Disclosure of Accounting Policies"
- Amendments to IAS 8 "Definition of Accounting Estimates"
- Amendments to IAS 12 "Deferred Tax related to Assets and Liabilities arising from a Single Transaction"

(Continued)

(c) The impact of IFRS issued by IASB but not yet endorsed by the FSC

The Group does not expect the following new and amended standards, which have yet to be endorsed by the FSC, to have a significant impact on its consolidated financial statements:

- Amendments to IFRS 10 and IAS 28 "Sale or Contribution of Assets Between an Investor and Its Associate or Joint Venture"
- IFRS 17 " Insurance Contracts" and amendments to IFRS 17 " Insurance Contracts"
- Amendments to IAS 1 "Classification of Liabilities as Current or Non-current"
- Amendments to IFRS 17 "Initial Application of IFRS 17 and IFRS 9 – Comparative Information "

(4) Summary of significant accounting policies:

(a) Statement of compliance

These consolidated financial statements have been prepared in accordance with the preparation and guidelines of IAS 34 "Interim Financial Reporting" which are endorsed and issued into effect by FSC, and do not include all of the information required by the Regulations and International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations and SIC Interpretations endorsed and issued into effect by the FSC (hereinafter referred to IFRS endorsed by the FSC) for a complete set of the annual consolidated financial statements.

Except the following accounting policies mentioned below, the significant accounting policies adopted in the consolidated financial statements are the same as those in the consolidated financial statement for the year ended December 31, 2021. For the related information, please refer to Note 4 of the consolidated financial statements for the year ended December 31, 2021.

Note: CHUANG SHIN TRAFFIC CO., LTD. is a non-significant subsidiary for the six months ended June 30, 2022 and 2021, its financial statements have not been reviewed.

(ii) Subsidiaries excluded from consolidation：None.

(c) Income taxes

The income tax expenses have been prepared and disclosed in accordance with paragraph B12 of International Financial Reporting Standards 34, Interim Reporting.

Income tax expenses for the period are best estimated by multiplying pre-tax income for the interim reporting period using the effective annual tax rate which is forecasted by the management. This should be recognized fully as tax expense for the current period and allocated to current and deferred taxes based on its proportionate size.

Temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and their respective tax bases shall be measured based on the tax rates that have been enacted or substantively enacted at the time of the asset or liability is recovered or settled, and be recognized directly in equity or other comprehensive income as tax expense.

(d) Employee benefits

The pension cost in the interim period was calculated and disclosed on a year-to-date basis by using the actuarially determined pension cost rate at the end of the prior fiscal year.

(5) Significant accounting assumptions and judgments, and major sources of estimation uncertainty:

The preparation of the consolidated financial statements in conformity with the Regulations and IFRSs (in accordance with IAS 34 “Interim Financial Reporting” and endorsed by the FSC) requires management to make judgments, estimates and assumptions that affect the application of the accounting policies and the reported amount of assets, liabilities, income and expenses. Actual results may differ from these estimates.

(Continued)

The preparation of the consolidated financial statements, estimates and underlying assumptions are reviewed on an ongoing basis which is in conformity with the consolidated financial statements for the year ended December 31, 2021. For the related information, please refer to Note 5 of the consolidated financial statements for the year ended December 31, 2021.

(6) Explanation of significant accounts:

Except for the following disclosures, there were no material differences in the disclosures of significant accounts between the consolidated interim financial statements for the current period and the consolidated financial statements for the year ended December 31, 2021. Please refer to Note 6 of the consolidated financial statements for the year ended December 31, 2021.

As of June 30, 2022, December 31, 2021 and June 30, 2021, the authorized capital of the Company consisted of 1,000,000 thousand shares, respectively, at a par value of $10 per share, amounting to $10,000,000 thousand, respectively, with the outstanding shares amounting to $4,999,990 thousand.

(i) Capital surplus

The components of the capital surplus were as follows:

	June 30, 2022	December 31, 2021	June 30, 2021
Treasury shares transactions	$ 71,496	57,888	38,837
Changes in equity of associates accounted for using equity method	17	17	17
Surplus from issuance of ordinary shares	915,977	915,977	915,977
Surplus from issuance of ordinary shares-employee stock options	4,132	4,132	4,132
Expired employee stock options	1,561	1,561	1,561
Other	13,559	13,559	13,559
	$ 1,006,742	**993,134**	**974,083**

According to the R.O.C. Company Act, capital surplus can only be used to offset a deficit, and only the realized capital surplus can be used to increase the common stock or be distributed as cash dividends. The aforementioned realized capital surplus includes capital surplus resulting from premium on issuance of capital stock and earnings from donated assets received. According to the Regulations Governing the Offering and Issuance of Securities by Securities Issuers, capital increases by transferring capital surplus in excess of the par value should not exceed 10% of the total common stock outstanding.

(ii) Retained earnings

The Company is in its mature stage of business cycle and its annual earnings and future cash flow are stable while the Company still have significant expansion of production capacity and vertical development plans in the next few years. The Company's Articles of Incorporation stipulate that the Company's net earnings should first be used to offset the prior years' deficits, if any, after paying any income taxes. Of the remaining balance, 10% is to be appropriated as legal reserve, and then at least 50% of the remaining profit, together with any undistributed retained earnings, shall be distributed according to the distribution plan proposed by the Board of Directors and submitted to the stockholders' meeting for approval. However, more than 30% of the total dividend distribution in the current year shall be distributed in cash dividends, and the rest shall be distributed in the form of stock dividends.

If the common stock dividends per share is less than NTD 0.1, the Board of Directors have the right not to distribute it.

A resolution was approved during the shareholders' meeting on December 26, 2021 for the amendments of the Company's articles of association as follows:

The Company is in its mature stage of business cycle and its annual earnings and future cash flow are stable while it still have significant expansion of production capacity and development plans in the next few years. Therefore, the distribution of surplus earnings should first be used to offset any deficit after the end of each quarter. If the surplus earnings are to be distributed in cash, it should be reported during the stockholder's meeting, without needing of approval, in accordance with Article 228-1 and 240-5 of Company Act. The Company's articles of incorporation stipulate that the Company's net earnings should first be used to offset the prior quarter's deficits, if any, after paying any income taxes. The appropriation for legal reserve is discontinued when the balance of the legal reserve equals the total authorized capital. Aside from the aforesaid legal reserve, the Company may, under its Articles of Incorporation or as required by the government, appropriate the earnings for special reserve. Of the remaining balance, 10% is to be appropriated as legal reserve, and the proportion of cash dividend shall not be less than 30% of the total dividend distribution.

If the cash dividend is less than NTD 0.1, the Board of Directors have the right not to distribute it.

1) Legal reserve

   When a company incurs profit, the shareholders shall decide on the distribution of the statutory earnings reserve either by issuing new shares or by paying cash of up to 25% of the actual share capital.

2) Special reserve

   The Company applied for exemptions during its first-time adoption of IFRSs, resulting in its retained earnings to increase by $240,776 thousand, incurred from unrealized revaluation increments, exchange differences on translation of foreign financial statements, and fair value of investment property being used as the cost on initial recognition at the transition date. In accordance with rules as issued by the Financial Supervisory Commission on April 6, 2012, a special reverse equals to the contra account of other shareholders' equity is appropriated from current and prior period earnings. The aforementioned special reserve may be reversed in proportion with the usage, disposal, or reclassification of the related assets, and then, be distributed afterwards. As of June 30, 2022, December 31, 2021, and June 30, 2021, the Company recognized the special reserve related to all IFRSs adjustments amounting to $240,776 thousand.

   When the debit balance of any of the contra accounts in the shareholders' equity is reversed, the related special reserve can be reversed. The subsequent reversals of the contra accounts in shareholders' equity shall qualify for additional distributions.

The special reserve that was calculated at the end of the period through the difference between the market price and the book value of the parent company's shares held by its subsidiaries based on their shareholding percentage shall not be distributed. However, if the market price rebounds, the special reserve shall be reversed according to their shareholding percentage.

3) Earnings distribution

The amounts of cash dividends of appropriations of earnings for 2021 and 2020 had been approved in the Board of Directors' meetings on March 25, 2022 and in the shareholders' meeting on August 18, 2021, respectively. These earnings were appropriated as follows:

	2021	2020
Common stock dividends per share		
Cash	$ 499,999	699,999
Dividends per share	$ 1	1.4

For information on earnings distribution, which was approved during the shareholders' meeting, please visit the public information observatory for further information.

The common stock dividends payable on June 30, 2022, was $486,391 thousand, and was accounted as other payables.

There will be no earnings distribution for the second quarter of the year based on the resolution approved during the Board meeting held on August 11, 2022.

(iii) Treasury stock (held by the subsidiaries)

Before the amendment of the Company Law in 2001, the Company's subsidiaries purchased the Company's stock in the open market for investment purposes. Stock held by subsidiaries are deemed as treasury stocks.

The numbers of shares, book value and market price held by the Company's subsidiaries are as follows:

For details on notes receivable, accounts receivable and loss allowance, please refer to Note 6(d).

The amount of revenue recognized for the three months and the six months ended June 30, 2022 and 2021, which were included in the contract liabilities balance at the beginning of the period, were $5,100 thousand, $1,120 thousand, $30,198 thousand and $18,669 thousand, respectively.

The major change in the balance of contract liabilities is the difference between the time frame in the performance obligation to be satisfied by transferring ownership to the customer and the payment to be received.

(v) Remunerations to employees and directors

The Company' s Articles of Incorporation require that earnings shall first be offset against any deficit, then, a minimum of 2% will be distributed as employee remuneration, and a maximum of 5% will be allocated as remuneration to directors. Employees who are entitled to receive the above-mentioned employee remuneration, in share or cash, include the employees of the Company' s subsidiaries who meet certain specific requirements.

For the three months and the six months ended June 30, 2022 and 2021, remuneration of employees of $7,339 thousand, $6,879 thousand, $15,944 thousand and $16,971 thousand, respectively, and remuneration of directors of $5,871 thousand, $4,816 thousand, $12,755 thousand and $11,880 thousand, respectively, were estimated on the basis of the Company' s net profit before tax, excluding the remuneration of employees and directors of each period, multiplied by the percentage of remuneration of employees and directors as specified in the Company's articles of incorporation. Such amounts were recognized as operating expenses for the three months and the six months ended June 30, 2022 and 2021, Management is expecting that the differences, if any, between the actual distributed amounts and estimated amounts will be treated as changes in accounting estimates and will be charged to profit or loss. The number of shares to be distributed was calculated based on the closing price of the Company's ordinary shares, one day prior to Board of Directors meeting.

For the years ended December 31, 2022 and 2021, the Company had accrued remuneration of employees of $34,500 thousand and $49,188 thousand, respectively, and remuneration of directors of $27,000 thousand and $34,431 thousand, respectively. There was no difference between the amounts approved in the Board of Directors meeting and the amounts distributed. For further information, please refer to Market Observation Post System website.

(x) Financial instruments

Except for the contention mentioned below, there was no significant change in the fair value of the Group's financial instruments and degree of exposure to credit risk, liquidity risk and market risk arising from financial instruments. For related information, please refer to Note 6(y) of the consolidated financial statements for the year ended December 31, 2021.

(i) Credit risk

1) Credit risk exposure

The carrying amount of financial assets represents the maximum amount exposed to credit risk.

2) Concentration of credit risk

Except for the Group's largest client, CENTRAL UNION OIL CORP., the Group did not have any major credit risk exposure to any individual counterparty or any "counterparties that have similar traits" (referred to by the Group as its "associates").

As of June 30, 2022, December 31, 2021 and June 30, 2021, the Group reviewed the concentrations of credit risk arising from its biggest customer-CENTRAL UNION OIL CORP., and it was below 21%, 26% and 23.77%, respectively, of the accounts receivable.

3) Accounts receivable of credit risk

For credit risk exposure of notes and accounts receivables, please refer to note 6(d). Other financial assets at amortized cost includes other receivables and time deposits, etc. All of these financial assets are considered to be low risk, and thus, the impairment provision recognized during the period was limited to 12 months expected losses. Please refer to Note 6(e) for the movement of allowance for loss.

(ii) Liquidity risk

The following table shows the contractual maturities of financial liabilities, including the estimated interest payments but excluding the impact of netting agreements.

2) Sensitivity analysis

The Group's exposure to foreign currency risk arises from the translation of the foreign currency exchange gains and losses on cash and cash equivalents, other financial assets-current, accounts receivable, other receivables and borrowings that are denominated in foreign currency. A 1% appreciation or depreciation of US dollar against New Taiwan dollar as of June 30, 2022 and 2021 would have increased (decreased) the pre-tax net income for the six months ended June 30, 2022 and 2021 by $2,470 thousand and $2,107 thousand, respectively. The analysis assumes that all other variables remain constant. The analysis is performed on the same basis for both periods.

3) Foreign exchange gains or losses on monetary item

Since the Group has various kinds of functional currency, the information on foreign exchange gain (loss) on monetary items is disclosed by the total amount. For the three months and six months ended June 30, 2022 and 2021, the foreign exchange (loss) gain (including realized and unrealized portions) amounted to $9,887 thousand, $2,795 thousand, $16,273 thousand and $6,408 thousand, respectively.

(iv) Interest rate analysis

Please refer to the notes on liquidity risk management and interest rate exposure of the Group's financial assets and liabilities.

	$ (490,006)	**62,550**	**(105,426)**

The following sensitivity analysis is based on the risk exposure to interest rate risk of derivative and non-derivative financial instruments on the reporting date. For variable rate instruments, the sensitivity analysis assumes the variable rate liabilities are outstanding for the whole year at the reporting date. The report of the Group' s internal management on the increases/decreases in the interest rates and the exposure to changes in interest rates of 0.5% is considered by the management to be a reasonable change of interest rate.

If the interest rate increases / decreases by 0.5%, the Group' s net income will decrease /increase by $980 thousand and $211 thousand for the six months ended June 30, 2022 and 2021, respectively, assuming all other variable factors remaining constant. This is mainly due to the Group's floating interest rate of cash in bank and borrowing factoring.

(v) Other market price risk

If the equity price changes, the impact of equity price change to other comprehensive income will be as follows; assuming the analysis is based on the same basis for both years and assuming that all other variables considered in the analysis remain constant:

	For the six months ended June 30			
	2022		2021	
	Comprehensive Income (Loss) (net of tax)	Net Income (Loss) (net of tax)	Comprehensive Income (Loss) (net of tax)	Net Income (Loss) (net of tax)

Decrease 5%	$ (4,830)	(3,769)	(8,109)	(3,676)

(vi) Fair value of financial instruments

1) Categories of financial instruments and fair value hierarchy

The Group measured its financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income on a recurring basis. The carrying amount and fair value of the Group's financial assets and liabilities, including the information on fair value hierarchy were as follows；however, except as described in the following paragraphs, for financial instruments not measured at fair value whose carrying amount is reasonably close to the fair value, and lease liabilities, disclosure of fair value information is not required:

2) Valuation techniques for financial instruments not measured at fair value:

The assumptions and methods used in valuing financial instruments that are not measured at fair value are as follows:

a) Financial assets and liabilities measured at amortized cost

Fair value measurement for financial assets and liabilities is based on the latest quoted price and agreed-upon price if these prices are available in an active market. When market value is unavailable, fair value of financial assets and liabilities are evaluated based on the discounted cash flow of the financial assets and liabilities.

(Continued)

3) Valuation techniques for financial instruments measured at fair value:

a) Non-derivative financial instruments

Financial instruments trade in active markets is based on quoted market prices.

If a quoted price of a financial instrument can be obtained in time and often from exchanges, brokers, underwriters, industrial union, pricing institute, or authorities and such price can reflect those actual trading and frequently happen in the market, then the financial instrument is considered to have a quoted price in an active market. If a financial instrument does not accord with the aforementioned definition, then it is considered to be without a quoted price in an active market. In general, market with low trading volume or high bid-ask spreads is an indication of a non-active market.

If the financial instruments held by the Group have an active market, the measurements of fair value are categorized as follows:

- The listed stocks and beneficiary certificate-open-end funds are recognized as financial assets and liabilities traded in active markets by the standards and nature. The fair value is measured at the market quoted price.

Measurements of fair value of financial instruments without an active market are based on valuation technique or quoted price from competitor. Fair value measured by valuation technique can be extrapolated from similar financial instruments, discounted cash flow method or other valuation technique which include model calculating with observable market data at the balance sheet date.

If the financial instruments held by the Group have no active market, the measurements of fair value are categorized as follows:

- Equity instruments without quoted price: The fair value is measured at net asset value method. By looking through the nature and the included items of each asset and liability item and collecting the market value information of each asset and liability for items whose book value may be different from the fair value, the Group needs to obtain the fair value of the Company's net assets, and calculate the Company's equity value. The discount effect is adjusted due to lack of market liquidity in equity securities.

b) Derivative financial instruments

These are based on the valuation model accepted by the most market users, ex: discount rate and option pricing model. Forward exchange agreement is usually based on the current forward rate. Fair value of structured financial instruments is based on appropriated valuation model, ex: Black-Scholes model, or other valuation model, ex: Monte Carlo simulation.

c) Financial instruments measured at fair value

The Group uses market-observable inputs as much as possible to measure its assets and liabilities. The different levels, wherein the inputs of valuation techniques are used to measure the fair value of financial and non-financial instruments have been defined as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: Unobservable inputs for the asset or liability.

4) Transfers between Level 1 and Level 2

There were no changes in the valuation techniques for fair value for the six months ended June 30, 2022 and 2021. In addition, there have been no transfers from each level for the six months ended June 30, 2022 and 2021.

5) Quantified information on significant unobservable inputs (Level 3) used in fair value measurement

The Group's financial instruments that use Level 3 inputs to measure fair value include financial assets measured at fair value through other comprehensive income-equity investments.

The Group's equity instrument investments without an active market in Level 3 have more than one significant unobservable inputs. The significant unobservable inputs of financial instrument investments without an active market are individually independent, and there is no correlation between them.

Quantified information of significant unobservable inputs was as follow:

Item	Valuation technique	Significant unobservable inputs	Interrelationship between significant unobservable inputs and fair value measurement
Financial assets at fair value through other comprehensive income-equity investments without an active market	net asset value method	·net asset value	· Not applicable
		·Market illiquidity discount (as of June 30, 2022, December 31, 2021 and June 30, 2021 were 25%)	· The estimated fair value would increase (decrease) if the market illiquidity discount were lower (higher)
Financial assets at fair value through profit or loss-equity investments without an active market	net asset value method	·net asset value	· Not applicable
		·Market illiquidity discount (as of June 30, 2022, December 31, 2021 and June 30, 2021 were 25%)	· The estimated fair value would increase (decrease) if the market illiquidity discount were lower (higher)

(Continued)

6) Fair value measurements in Level 3 – sensitivity analysis of reasonably possible alternative assumptions

The Group' s measurement on the fair value of financial instruments is deemed reasonable despite different valuation models or assumptions may lead to different results. For fair value measurements in Level 3, changing one or more of the assumptions would have the following effects on profit or loss and other comprehensive income：

	Inputs	Fluctuation in inputs	Profit or loss		Other comprehensive income	
			Favorable	Unfavorable	Favorable	Unfavorable
June 30, 2022						
Financial assets at fair value through other comprehensive income						
Equity investments without an active market	Market illiquidity discount	1%	$ -	-	132	(132)
December 31, 2021						
Financial assets at fair value through other comprehensive income						
Equity investments without an active market	Market illiquidity discount	1%	$ -	-	124	(124)
June 30, 2021						
Financial assets at fair value through other comprehensive income						
Equity investments without an active market	Market illiquidity discount	1%	$ -	-	210	(210)

The favorable and unfavorable effects represent the changes in fair value, and fair value is based on a variety of unobservable inputs calculated using a valuation technique. The analysis above only reflects the effects of changes in a single input, and it does not include the interrelationships with another input.

(y) Financial risk management

There were no significant changes in the Group' s financial risk management and policies as disclosed in Note 6(z) of the consolidated financial statements for the year ended December 31, 2021.

(z) Capital management
