I、Report to Shareholders

Dear shareholders, ladies, gentlemen, and distinguished guests. Thank you for taking the time out of your busy schedules to attend Taisun's 2026 Shareholders' Meeting.

Looking back at the overall economic environment in 2025, global economic growth has slowed, while uncertainties such as climate change and geopolitical risks persist. In addition, as the Company's raw materials are primarily imported, rising raw material prices and exchange rate fluctuations have significantly increased cost pressures, posing considerable operational challenges.

In the bulk commodities business, soybean raw material costs declined and sales volume continued to grow. Although declining prices reduced gross profit, the Company timely monitored cost and market trends and adjusted its sales strategies accordingly to maintain profitability.

In the food business, under continuous adjustments to the product mix, although revenue declined compared to the previous year, the Company continued to develop higher-margin products, optimize distribution channels, and refine the sales structure. With appropriate cost control, stable profitability was maintained.

In the China operations, economic growth in China has also slowed. In the face of a challenging operating environment and market conditions, the Company has continued to optimize its product mix and improve production efficiency, resulting in a sustained increase in gross margin and stable profitability.

The management team has continued to refine organizational structure and optimize production line allocation to enhance cost competitiveness, maintaining overall gross margin year over year. In 2025, consolidated revenue amounted to NT$10.114 billion, representing a decrease of 5.32% compared to the previous year. However, total comprehensive income reached NT$777 million, an increase of 4.69% year over year, resulting in earnings per share of NT$1.59, higher than NT$1.53 in the prior year.

Food safety and compliance with ESG standards are the core competitive values of the Company. The management team will continue to optimize the product structure, improve the organization, and plan the best production line configuration to enhance cost competitiveness. Leveraging the strength of comprehensive distribution and diverse marketing channels, the Company will actively expand sales both domestically and internationally, aiming to further improve business performance, achieve new sales and profit milestones, and continuously create value for shareholders.

1.2025 Operating Results:

1.1. The results of the business plan:

The consolidated net operating revenue amounted to NT$ 10,114,639 thousand, an decrease of NT$ 567,806 thousand compared to 2024. The operating net operating profit NT$ 419,776 thousand, a

reduce of NT$ 198,198 thousand compared to 2023. The net operating profit after tax was NT$ 777,476 thousand, a increase of NT$ 34,835 thousand compared to the previous year.

1.2. Budget Execution:

In accordance with current regulations, the Company did not disclose financial forecasts for 2024. However, the actual operating performance is not significantly different from the internal plans of the Company.

1.3. Analysis of financial income and expenditure:

Unit: NT$ thousand

Item	2025	2024
Operating revenue	10,114,639	10,682,445
Operating costs	8,335,633	8,792,373
Operating margin	1,779,006	1,890,072
Operating expenses	1,359,230	1,272,098
Net operating income (loss)	419,776	617,974
Non-operating revenue and expenditures	374,312	263,416
Profit before tax	794,088	881,390
Tax income (expense)	(16,612)	(138,749)
Net profit (loss) for the current period	777,476	742,641

1.4. Analysis of profitability:

Item	2025	2024
Gross profit margin	17.59%	17.69%
Net profit rate	7.69%	6.95%
Return on equity	5.99%	5.79%
Earnings per share	NT$ 1.59	NT$ 1.53

1.5. Research and development status:

Total R&D expenses for 2025 amounted to NT$34,180 thousand. The R&D team continuously optimizes the processes and formulations of existing products, has obtained multiple product and laboratory certifications, and continues to advance environmentally friendly packaging technologies and promote the productization of waste recycling, gradually fulfilling its commitment to environmental sustainability.

2.Summary of 2026 Business Plan:

2.1. Business Policy

2.1.1. Uphold food safety and achieve the goal of net-zero carbon emissions: Food safety and compliance with ESG standards are the core competitive values of the Company. The business operation not only seeks profit but also assumes responsibility for society and the environment. The Company continues to focus on sustainability, fulfill its social responsibilities, implement ESG principles, and create reasonable long-term investment value for shareholders.

2.1.2. Develop excellent partnerships and strengthen marketing channels: The Company has

outstanding partners in research, manufacturing, and sales. Through horizontal and vertical resource integration and the enhancement of both modern and traditional channels, the Company actively expands domestic and international sales to achieve high growth performance.

2.1.3. Consumer-oriented product development and continuous improvement of quality management: The Company consistently collects market-related data to gain insights into consumer preferences and trends, meeting consumer expectations for products. With rigorous management verification as a guarantee of product quality, the Company continues to deepen consumer trust in Taisun, fostering brand loyalty, recognition, and product strength.

2.1.4. Systematic talent development plan: Cultivate cross-disciplinary and highly agile key talent to strengthen organizational responsiveness and sustainability. We continue to optimize internal organizational operations by adopting strategies that enable flexible adjustment and adaptation to market changes, enhancing team agility and responsiveness to ensure stable development in a dynamic environment, and jointly creating a more resilient and innovative future.

2.2. Expected sales volume and major production and sales policies:

Based on current production capacity, strategic plans, and future market trend changes, the bulk business, including oil products and soybean powder, is expected to have a sales volume of 260,000 tons. The food business, including ambient and refrigerated products, is expected to have a sales volume of 190,000 tons. Based on this forecast, the key focus of future production and sales policies is as follows:

2.2.1. Production policy:

(1) In order to comply with international trends and customer requirements, the Company's management systems and products have been certified. In addition, we have also obtained SQF9.0 certification, strengthened source management and rigorous food safety quality standards, and has been certified by GFSI, which is in line with international standards and drives the company's product sales worldwide.

(2) Introduce ISO 45001 (Occupational Health and Safety Management System) to enhance occupational safety and health (OHS), reduce workplace risks, prevent occupational injuries and diseases, establish a safety culture, and increase employee awareness and participation in safety.

(3) To improve process efficiency, the Company is upgrading production line equipment, conducting a full-factory automation evaluation, and implementing lean management systems to reduce unnecessary waste.

(4) Implement a supplier management system to enhance supply chain transparency and risk management, improve procurement efficiency and cost control, optimize procurement planning,

reduce unnecessary inventory and procurement costs, improve overall supply chain efficiency, minimize risks, enhance quality, ensure compliance, and ultimately strengthen market competitiveness.

2.2.2. Sales policy:

(1) In response to consumer trends, we continue to research healthy cooking oil and maintain the Company's leading position in the edible oil market.

(2) We proactively develop diversified markets for feed extruded ingredients and products, and focus on plastic reduction issues for environmental sustainability. For example: Plastic packaging is reduced for raw materials and switch to bulk materials.

(3) We continue to expand Taisun's influence in the water market and manage dim sum brands for young people. In the catering market, we are expanding Sunkist and Kaoliang liquor of Matsu Distillery distribution channels.

(4) We will continue to adjust the product structure, enhance the development and sales of high value-added products, strengthen brand image and power, while actively deploying and integrating resources to maximize benefits and improve profitability.

3. Impacts of the external competitive environment, the regulatory environment, and the overall business environment

3.1. External competitive environment

With the aging population, the rise of diverse sales channels, consolidation in the retail market, accelerated expansion of international brands, and the rapid emergence of private labels and new brands driven by the active OEM market, market competition has become increasingly intense. In response to changes in domestic supply and demand as well as international market trends, the Company seeks to capture import and export opportunities. We continue to focus on product innovation, incorporate health concepts into new products, enhance brand value, and strengthen marketing efforts.

3.2. Regulatory environment

In response to the ongoing emergence of food safety issues, Taisun closely monitors changes in food regulations and strictly complies with government food safety laws and regulations. Through high-standard quality control, the Company fully upholds its commitment to ensuring “food safety” for consumers. In addition to complying with external regulations, it actively adopts relevant management certifications and aligns with internationally recognized food safety quality certifications to establish a trustworthy and reliable brand image. We fully recognize the importance of environmental sustainability to both the Company and society, and continue to promote environmentally friendly packaging technologies and the productization of waste recycling. We are progressively fulfilling our commitment to environmental sustainability by systematically reducing the environmental impact of production, practicing

corporate sustainability responsibilities, and building a healthier, safer, and more environmentally friendly future.

3.3. Overall business environment

Changes in the global political and economic landscape, climate change, and the transition toward sustainability are bringing both challenges and opportunities to corporate operations, influencing business models and strategic planning. Looking ahead, Taisun will uphold its core philosophy of sustainable management, ensuring financial stability and sound corporate governance while continuing to deepen its positive impact on the environment and society.

Our journey to date has been made possible by the long-term support and trust of our shareholders, consumers, and the broader public, enabling us to remain firmly established in the market for over 76 years. Taisun will continue to take concrete actions in environmental protection, social responsibility, and corporate governance, while consistently cultivating talent, as sustainable talent is essential to achieving sustainable development. We will work together to build a strong foundation for the next 100 years.

This is the end of my report. I hope that all shareholders will continue to give their support and advice and I wish you good health and all the best!

Chairman: Liu Wei-Lung

Manager: Shen Yi-Chun

Accounting Supervisor: Li Shu-Hui

He is also a manager with practical capabilities in accounting, business, marketing and industry-related business planning, management and administration competence.	(Note 2)	1

Note 1: None of the directors has any of the circumstances specified in the subparagraphs of Article 30 of the Company Act.

Note 2: None of the independent directors was elected as a representative of the government, a juristic person, or its representative in accordance with Article 27 of the Company Act. Independence status includes the following:

(1) Not an employee of the Company or its affiliates.

(2) Not a director or supervisor of the Company or its affiliates.

(3) Not a natural-person shareholder who holds shares, together with those held by the person's spouse, minor children, or held by the person under others' names, in an aggregate amount of one percent or more of the total number of outstanding shares of the Company or ranking in the top ten in holdings.

(4) Not the spouse, a relative within the second degree of kinship, or a lineal blood relative within the third degree of kinship of any of the persons listed in the preceding three subparagraphs.

(5) Not a director, supervisor, or employee of a company that has a specific relationship with the Company.

(6) Has not received remuneration in the past two years for providing commercial, legal, financial, accounting, or related services to the Company or its affiliates.

Board diversity policy, specific management objectives and implementation status:

1.3.1. Board member diversity policy:

The Company's directors are elected in accordance with the candidate nomination system set forth in Article 192-1 of the Company Act. Shareholders shall elect directors from the list of director candidates, and at least one board meeting shall be convened each quarter. Article 20 of the Company's "Corporate Governance Practices" stipulates:
The composition of the board of directors shall be determined by taking diversity into consideration. It is advisable that directors concurrently serving as company officers not exceed one-third of the total number of the board members, and that an appropriate policy on diversity based on the company's business operations, operating dynamics, and development needs be formulated and include, without being limited to, the following two general standards:

I. Basic requirements and values: Gender, age, nationality, and culture.
II. Professional knowledge and skills: A professional background (e.g., law, accounting, industry, finance, marketing, technology), professional skills, and industry experience.

All members of the board shall have the knowledge, skills, and experience necessary to perform their duties. To achieve the ideal goal of corporate governance, the board of directors shall possess the following abilities:
(I) Ability to make operational judgments. (II) Ability to perform accounting and financial analysis.
(III) Ability to conduct management administration. (including management of subsidiaries)
(IV) Ability to conduct crisis management. (V) Knowledge of the industry. (VI) An international market perspective.
(VII) Ability to lead. (VIII) Ability to make policy decisions

The Company elected the Board of Directors on May 28, 2024. The current Board of Directors is composed of members from professional fields such as law, accounting, and business management. However, there is currently one female director, and nine male directors, accounting for 100%. There is currently lacking one female director. There are 9 males, accounting for 100% of all Board members, and currently there are 0 females, accounting for 0% of all Board members. We plan to elect one additional female director to the company management team at the 2025 AGM in the new #year, in order to enrich the concept of diversity on the Board of Directors. Through more diversified management perspectives, we hope to accumulate more profound professional leadership experience.

1.3.2. Specific management objectives:

The specific management objectives for the diversity policy and achievement are as follows:

Management objectives	Achievement
The seats of independent directors reached one-third of the seats of directors	Achieved
Directors who also concurrently serve as company general directors are advised to not exceed one-third of the seats of directors	Achieved
More than 1 female director (target at least 2 female directors)	Achieved
Both general directors and independent directors have served less than 3 terms	Achieved
Adequate and diverse professional knowledge and skills	Achieved

1.3.3. Independence of the Board of Directors:

In order to implement the policy of diversity of the Board of Directors, the current Board of Directors consists of 6 directors and 3 independent directors for a total of 9 seats (independent directors accounted for 33.33%). Among the directors, 8 are male, accounting for 100% of all directors, and 1 are female, accounting for 11% of all directors. None of the directors of the Company concurrently serve as a manager of the Company. The members of the Board of Directors have professional backgrounds in law, industry, finance and accounting, marketing, and technology, and have the skills in business management, leadership decision-making, operational judgment and crisis management, accounting and financial analysis, industry knowledge, and international market outlook. We demonstrate the effectiveness of diversity and complementarity in order to protect the rights and interests of shareholders and properly observe and practice corporate governance. The term of each board of directors is 3 years, and a candidate nomination system is adopted.
The Company's Board of Directors is not subject to the conditions specified in Paragraphs 3 and 4, Article 26-3 of the Securities and Exchange Act and is independent.

1.3.4. Succession planning for members of the Board of Directors and key management personnel:

In order to implement good governance, the Company follows the "Corporate Governance Best Practice Principles". The Board implements the policy of diversity of board members, and conducts the "Performance Evaluation of the Board of Directors" every year. The evaluation results are used as a reference for the nomination of directors in the future. To implement independence, more than half of the Company's directors are not spouses or relatives within the second degree of kinship. We ensure that members have the knowledge, skills and literacy necessary to perform their duties.

The Company continues to arrange continuing education courses for board members and senior managers every year. By doing this, we help members improve their professional knowledge, international market outlook and other professional capabilities, in order to strengthen the functions of the Board of Directors and improve the decision-making ability in case of crisis judgment.

The Company also provides an internal online course learning platform, which is rich in leadership, management, technology, innovation, industry trends and other continuing education programs for management colleagues to learn on their own. The selection process of the Company's director candidate list complies with the qualification review and related regulations to ensure that suitable new director candidates can be effectively identified and elected when there is a vacancy in the number of directors or planning to increase the number of directors.

1.3.5.Implementation status of the diversity policy:

2.4.Analysis of the total remuneration paid to the directors, supervisors, general manager and deputy general managers of the Company in the most recent two years by the Company and all companies in the consolidated financial statements as a percentage of the net income after tax of parent company only financial reports or individual financial reports; and explain the payment remuneration policies, standards and combinations, procedures for determining remuneration, and their correlation with business performance and future risks:

2.4.1.The total remuneration paid to the directors, supervisors, general managers and deputy general managers of the Company in the most recent two years accounts for the percentage of net income after tax of the parent company only financial reports or individual financial reports:

Year	The Company		All companies in the consolidated statements	
	2025	2024	2025	2024
Total remuneration	NTD 37,704 thousand	NTD 47,568 thousand	NTD 39,704 thousand	NTD 47,568 thousand
Percentage of net profit after tax	5.14%	6.41%	5.14%	6.41%

Note: The 2024 parent-only net income after tax was calculated at NTD742,411 thousand; 2025 parent-only net income after tax was calculated at NTD772,856thousand.

2.4.2.Remuneration policies, standards and combinations, the procedures for setting remuneration, and the relevance to business performance and future risks:

(1) The remuneration of the directors of the Company is drafted in accordance with Article 19-1 of the Company's Articles of Incorporation. The Chairman and directors of the Company are remunerated when performing their duties in the Company. The Board of Directors is authorized to consider the recommendations on the Company's Remuneration Committee and follow the Chairman and the extent of individual directors' participation in the Company's operations and the value of their contributions agreed upon according to the industry's usual standards. In addition, if the Company has made a profit in the current year, according to the Company's Articles of Incorporation, less than 5% is allocated as directors' remuneration. The actual allocation ratio will be reviewed by the remuneration and will be submitted to the Board of Directors for a resolution. As for independent directors, their monthly fixed remuneration is determined by the Board of Directors, and they receive a fee for attending each board meeting; they do not participate in the distribution of remuneration when the Company makes a profit.

(2) The remuneration to the Company's general manager, Deputy General Manager and equivalent positions includes salary and bonus. The salary is determined based on industry standards, job title, rank, education, professional capabilities and responsibilities. The bonus is determined based on the performance evaluation of managers. The performance evaluation includes financial indicators (such as the achievement rate of the Company's revenue, profit before tax and profit after tax) as well as non-financial indicators (such as significant deficiencies in legal compliance and operational risks of their departments). The remuneration and bonus are approved in accordance with their contribution to the Company's overall operation, which are submitted to the Remuneration Committee for review.

(3) Employee remuneration policy, on the other hand is based on each employee's capabilities, contribution to the Company, performance, the market value of the employee's job position while taking into account the Company's future operational risks and business performances. There is no discrimination in the employee's age, gender, race, religion, political preference, marital status, or union. If the Company makes a profit in the current year, no less than 2% shall be allocated as employee remuneration in accordance with the Company's Articles of Incorporation. The overall remuneration to employees primarily consist of 3 components: basic fixed salary, bonus and benefits. The payment standards: basic fixed salary is determined based on the market rate of the position held by the employee; bonus is paid in connection with achievement of the employee and the Company's business performance, and annual recognition is given to the team or individuals with outstanding results; and the design of benefits for the employee to enjoy is based on the regulations of the law as well as the employee's needs.

3.Corporate governance operations

3.1.Information on the operation of the Board of Directors

The Board of Directors met 13 times(A) during 2025 and up to the publication date of the annual report (the 24rd Board met 8 times and the 25th Board met 5 times as of March). The attendance of directors and supervisors is as follows:

Job title	Name	Number of actual attendances (B)	Number of attendances by proxy	Actual attendance rate (%)【B/A】	Remarks
Chairman	Representative of Everwin Investment Co., Ltd.: Liu Wei-Lung	13	0	100%	2025/12/10 Renewal
Director	Representative of Everwin Investment Co., Ltd.: Liu Huang-Chi	13	0	100%	2025/12/10 Renewal
Director	Representative of Everwin Investment Co., Ltd.: Shao Ming-Bin	13	0	100%	2025/12/10 Renewal
Director	Representative of Everwin Investment Co., Ltd.: Han Tai-Sheng	11	2	85%	2025/12/10 Renewal
Director	Representative of Everwin Investment Co., Ltd.: Wang Yen-Chun	12	1	92%	2025/12/10 Renewal
Director	Representative of Everwin Investment Co., Ltd.: Chan Chin-Chia	8	0	100%	2025.12.10 Dismissal
Director	Representative of Everwin Investment Co., Ltd.: Tan, Shun-Jen	7	0	100%	2025/05/29 one additional director 2025/12/10 Renewal
Independent Director	Hu Yi-Fu	13	0	100%	2025/12/10 Renewal
Independent Director	Chen Wei-Yu	13	0	100%	2025/12/10 Renewal
Independent Director	Wang Tsai-An	13	0	100%	2025/12/10 Renewal

Note 1: The actual attendance rate (%) is calculated based on the number of Board meetings held during active duty and the number of the director's actual attendances.

Note 2: Director Tang Shun-Jen was elected as a 24th-term director at the annual general shareholders' meeting on May 29, 2025, and assumed office following the re-election and appointment of the 25th Board of Directors at the extraordinary shareholders' meeting on December 10, 2025.

Other matters to be recorded:

(1) If the operation of the Board of Directors falls into one of the circumstances, the date and duration of the meeting, details of proposals, the opinions of all independent directors and how the Company deals with such opinions:

(1-1)Matters listed in Article 14-3 of the Securities and Exchange Act: The Company appointed independent directors and established the Audit Committee on April 25, 2016. In accordance with Article 14-5 of the Securities and Exchange Act, the Company is not subject to the provisions of Article 14-3 of the Securities and Exchange Act. Please refer to p.24 of this annual report for important resolutions of the Audit Committee in 2024 and as of the publication date of this annual report.

(1-2)Except for the preceding matters, any matter resolved by the Board of Directors with an independent director expressing an objection or reservation that has been included in records or stated in writing: Please refer to p.57 to p.59 of this annual report: In 2024 and as of the publication date of the annual report, important resolutions of the Board of Directors and independent directors' opinions, and the Company's handling of independent directors' opinions:

(2) Recusal of the Directors from motions involving their private interest, specify the names of the Directors, the content of the motions, the reason for recusal, and the participation in voting: Please refer to Note 1 on p.20 of this annual report.

(3) TWSE/TPEx Listed Companies should disclose the evaluation cycle and period, assessment scope, method and evaluation content of the board's self (or peer) evaluation: Please refer to Note 2 on p.21 of this annual report.

(4) The objective for fortifying the function of the Board in the current year and the most recent year (e.g., setting up an audit committee, improving information transparency, etc.) and the assessment of the status of implementation:

(4.1.)The Company established the Audit Committee on April 25, 2016.

(4.2.)In 2025 and as of the publication date of the annual report, and in accordance with the Company Act, Article 14-3 of Securities and Exchange Act, the Company's proposals shall be submitted to the audit committee for approval or the resolution of the Board of Directors. After the approval of the audit committee, it is sent to the Board of Directors for resolution and implementation. It is not necessary to submit the proposal approved by the audit committee first, and then directly submit the resolution to the Board of Directors for implementation.

(4.3.)In line with the competent authority's promotion of the new corporate governance roadmap to effectively perform the

functions of the Board of Directors, the 21st and 22nd of the Company's Board meeting held on March 8, 2021 resolved the motion for setting up a dedicated corporate governance unit and recommendations for a manager. Ms. Li Shu-Hui of the Financial Division was appointed to serve as the current corporate governance manager.

(4.4.)Enhance information transparency:

1. Since 2021, the Company has released all material information announcements in English.
2. Since 2021, the Company has uploaded its English annual financial report 16 days prior to the AGM.
3. Since 2021, the Company discloses its English interim financial report within 2 months after the filing of its Chinese interim financial report is due.
4. Starting in 2022, the Company uploads the annual report 18 days before the Shareholders' Meeting.

Note 1: Recusal of the Directors from motions involving their private interest, specify the names of the Directors, the content of the motions, the reason for recusal, and the participation in voting:

(1) The 12th meeting of the 24th Board on 2025/5/12

Proposal to amend the scope of the lease for the Taipei headquarters office leased from the related party, Long Bon.

In this proposal, Chairman Liu Wei-Lung, Vice Chairman Liu Huang-Chi, Director Shao Ming-Bin, Director Han Tai-Sheng, Director Chan Ching-Chia, and Director Wang Yen-Chun are representatives of Baso; independent director Wang Tsai-An also serves as an independent director of Long Bon. Chairman Liu Wei-Long designated independent director Chen Wei-Yu as the acting chair for this proposal. Except for the aforementioned directors who recused themselves due to conflicts of interest and did not participate in the discussion and voting, the remaining directors raised no objection and approved the proposal as presented.

(2) The 15th meeting of the 24th Board on 2025/8/12

Proposal for the merger between the Company and its subsidiary Taisun Yuan Co., Ltd.

As the counterparty to this transaction is Taisun Yuan Co., Ltd., Chairman Liu Wei-Lung also serves as the Chairman of Taisun Yuan, and General Manager Shen Yi-Chun also serves as a director of Taisun Yuan. Chairman Liu Wei-Lung designated Vice Chairman Liu Huang-Chi as the acting chair for this proposal. Except for Chairman Liu Wei-Lung and General Manager Shen Yi-Chun, who recused themselves due to conflicts of interest and did not participate in the discussion and voting, the remaining directors raised no objection and approved the proposal as presented.

(3) The 3rd meeting of the 25th Board on 2025/12/24

A. Motion for appointment of Remuneration Committee members.

In this proposal, independent directors Wang Tsai-An, Hu Yi-Fu, and Chen Wei-Yu did not participate in the discussion or voting. Upon consultation by the chair with the other attending directors, the proposal was approved as presented.

B. Appointment of members of the Company's Sustainable Development Committee.

In this proposal, Director Wang Yen-Chun did not participate in the discussion or voting. Upon consultation by the chair with the other attending directors, the proposal was approved as presented.

(4) The 4th meeting of the 25th Board on 2026/1/29

A. Appointment of members of the Company's Sustainable Development Committee.

In this proposal, Director Wang Yen-Chun, independent director Chen Wei-Yu, independent director Wang Tsai-An, and independent director Hu Yi-Fu did not participate in the discussion or voting. Upon consultation by the chair with the other attending directors, the proposal was approved as presented.

B. Proposal on the remuneration recommendation for the 25th-term independent directors and the 8th Remuneration Committee.

In this proposal, independent directors Chen Wei-Yu, Wang Tsai-An, and Hu Yi-Fu did not participate in the discussion or voting. Upon consultation by the chair with the other attending directors, the proposal was approved as presented.

C. Motion for suggestion on the remuneration to the general directors of the 25th term.

As this proposal concerns the remuneration of general directors, Chairman Liu Wei-Lung, Vice Chairman Liu Huang-Chi, Director Shao Ming-Bin, Director Han Tai-Sheng, Director Wang Yen-Chun, and Director Tang Shun-Jen recused themselves in accordance with the law due to conflicts of interest. The chair designated independent director Chen Wei-Yu as the acting chair for this proposal, and he did not participate in the discussion or voting. Upon consultation by the chair with the other attending directors, the proposal was approved as presented.

D. Motion for suggestion on the remuneration to the Chairman.

As this proposal concerns the remuneration of Chairman Liu Wei-Lung, he recused himself in accordance with the law due to a conflict of interest. The chair designated independent director Chen Wei-Yu as the acting chair for this proposal. Chairman Liu Wei-Lung did not participate in the discussion or voting. Upon consultation by the chair with the other attending directors, the proposal was approved as presented.

E. Motion for suggestion on the remuneration to the Vice Chairman.

As this proposal concerns the remuneration of Vice Chairman Liu Huang-Chi, he recused himself in accordance with the law due to a conflict of interest. Vice Chairman Liu Huang-Chi did not participate in the discussion or voting. Upon consultation by the chair with the other attending directors, the proposal was approved as presented.

F. Motion for suggestions regarding 2025 year-end bonus and distribution.

As this proposal concerns employee remuneration, Chairman Liu Wei-Lung and Vice Chairman Liu Huang-Chi recused themselves in accordance with the law due to conflicts of interest. The chair designated independent director Chen Wei-Yu as the acting chair for this proposal. Chairman Liu Wei-Lung and Vice Chairman Liu Huang-Chi did not participate in the discussion or voting. Upon consultation by the chair with the other attending directors, the proposal was approved as presented.

Note 2: The implementation of the evaluation by the Board of Directors:

Evaluation cycle	Evaluation period (Note 3)	Evaluation scope	Evaluation method	Evaluation content	Evaluation result
Once a year	2025/01/01 | 2025/11/12	Board of Directors	Self-evaluation of the Board of Directors	Covering five major aspects: 1. Degree of participation in the Company's operations 2. Improvements in the quality of board decisions 3. Composition and structure of the Board of Directors 4. Selection and continuing education of directors 5. Internal controls	(1) Overall evaluation results: In 2025, the Board of Directors, the internal self-evaluation of the Board members and the self-evaluation of the functional committees (including the Audit Committee and the Remuneration Committee) were all "above standard". (2) Most of the directors of this term have professional backgrounds in law, finance, operations management, etc., and have professional abilities in operations management, professional legal knowledge, crisis management, finance and economics, and international market outlook, demonstrating the effectiveness of diversification and complementarity. (3) In the future, the corporate governance unit will seek assistance and information from external professional institutions in accordance with the Company's Board Performance Evaluation Methods to enhance the operation of the Board of Directors. (4) The evaluation results were submitted to the Board of Directors on March 12, 2025.
	2025/01/01 | 2025/11/12	Individual Board Member	Self-evaluation of individual board members	Covering six major aspects: 1. Mastery of company goals and tasks 2. Awareness of directors' duties 3. Degree of participation in the Company's operations 4. Internal relationship management and communication 5. Professional and continuous education of directors 6. Internal controls	
	2025/01/01 | 2025/11/12	Audit Committee	Self-evaluation of Audit Committee	Covering five major aspects: 1. Degree of participation in the Company's operations 2. Recognition of the responsibilities of functional committees 3. Improvement in the decision-making quality of the Audit Committee 4. Composition of the functional committees and election of their members 5. Internal controls	
	2025/01/01 | 2025/11/12	Remuneration Committee	Self-evaluation of Remuneration Committee		

Note 1: The Board of Directors of the Company passed the "Board Performance Evaluation Methods" on February 27, 2020, stipulating that the Board of Directors shall perform internal evaluations at least once a year with regard to the performance evaluation of the Board of Directors, directors, audit committee and Remuneration Committee. The internal performance evaluation results shall be completed before the end of the first quarter of the following year.

Note 2: The evaluation execution method and evaluation execution is the responsibility of the Agenda Working Group. Using internal questionnaires focusing on directors' evaluation of the operation of the Board of Directors, directors' evaluation of their own participation, the Audit Committee's evaluation of committee operations, and the Remuneration Committee's evaluation of committee operation. The Company's Agenda Working Group will analyze the previous measures, report the results to the Board of Directors, and propose ways to strengthen and improve the director's suggestions.

Note 3: The Company elected all directors on 2025/12/10, and the 25th Board of Directors took office on 2025/12/10; the 8th Remuneration Committee held its 1st meeting of the 8th term on 2025/1/29.

(I) The annual work focus of the Audit Committee:

The audit committee aims to assist the Board of Directors in fulfilling its supervisory duties on the effectiveness of the internal monitoring mechanism, and is responsible for the tasks entrusted to it by the Company Act, the Securities and Exchange Act and other relevant laws and regulations, and for implementing the quality and integrity of accounting, auditing, financial reporting processes, and financial control. Since 2016, the Company's Audit Committee is made of all three independent directors, and a committee meeting is held at least once a quarter.

1. The Audit Committee's powers and considerations mainly include:

(1) Establishing or amending the internal control system in accordance with the provisions of Article 14-1 of the Securities and Exchange Act.
(2) Evaluating the effectiveness of the internal control system.
(3) In accordance with the provisions of Article 36-1 of the Securities and Exchange Act, to stipulate or amend the procedures for acquiring or disposing of assets, engaging in derivatives transactions, making loans to others, endorsing or providing guarantees for others, and procedure for major financial operations.
(4) Matters involving directors' own matters of interest.

(5) Transactions of major assets or derivatives.
(6) Significant capital loans, endorsements, or guarantees.
(7) Raising, issuing, or private placement of equity securities.
(8) Appointment, dismissal, or remuneration of certified public accountants.
(9) Assessment of qualifications and independence of certified public accountants.
(10) Appointment and removal of financial, accounting, or internal audit supervisors.
(11) Financial reports for Q1, Q2 and Q3 and the annual financial reports signed or sealed by the Chairman, managers and Accounting Supervisor.
(12) Self-evaluation questionnaires for audit committee performance evaluations.
(13) Other important matters specified by the Company or the competent authority.

Reviews of financial reports

The Board of Directors prepared the Company's 2025 annual business report, financial statements, and earnings distribution proposals, among which the financial statements were verified by CPAs of EY Taiwan, with a verification report issued. The above-mentioned business reports, financial statements, and profit distribution proposal have been checked by the audit committee and it was found that there are no discrepancies.

Assess the effectiveness of the internal control system

The Audit Committee evaluates the effectiveness of the Company's internal control system policies and procedures (including control measures such as finance, operation, risk management, information security, outsourcing, compliance with laws and regulations). Furthermore, it reviews the Company's audit department, certified accountants, and management's regular reports, including risk management and compliance. With reference to the "Internal Control - Integrated Framework" published by The Committee of Sponsoring Organizations of the Treadway Commission (COSO) in 2013, the Audit Committee found the Company's risk management and internal control systems to be effective. The Company has adopted the necessary control mechanisms to monitor and correct violations.

Appointment of a certified public accountant

The audit committee is assigned the responsibility of supervising the independence of the certified public accounting firm to ensure the fairness of the financial statements.
On January 29,2026, the Company's Audit Committee and Board of Directors' meeting reviewed and approved the appointment of CPAs. On the same day, it was assessed that both Huang,Tzu-Ping and Lin Su-Wen, CPAs of EY Taiwan, met the independence evaluation standards and were qualified to serve as the Company's CPAs for financial and tax matters.

Information on the operations of the Audit Committee:

In 2025 and as of the as of the publication date of the annual report, the Audit Committee met 9 times (A), and the attendance of independent directors is as follows:

Data as of 2026/03/31

Job title	Name	Actual attendance (B)	Number of delegates attending	Actual attendance rate (%) (B/A)	Remarks
Independent Director	Wang Tsai-An	8	1	89%	2025.12.10 Dismissal
Independent Director	Chen Wei-Yu	8	0	100%	
Independent Director	Hu Yi-Fu	8	0	100%	

Note:
(1) The actual attendance rate (%) is calculated based on the number of Audit Committee meetings held during active duty and the number of actual attendance.
(2) The election took place on 2025/12/10, and the 6th term of independent directors took office on 2025/12/10.

Other matters to be recorded:

I. For Audit Committee meetings that meet any of the following descriptions, state the date and session of the Audit Committee meeting held, the discussed topics, the content of the objections, reservations or material recommendations on independent directors, the Audit Committee's resolution, and how the company has responded to Audit Committee's opinions.

(I) Matters listed in Article 14-5 of the Securities and Exchange Act.

(II) Further to the aforementioned matters, motions rejected by the Auditing Committee but passed by the Board at the consent of more than two-third of the Directors.

For the above (I) and (II), please refer to p.42 to p.43 of this annual report, important resolutions of the Audit Committee in 2025 and as of the publication date of this annual report.

II. For avoidance of conflict of interest by independent directors, the name of independent directors, details of proposals, reasons for avoidance and voting results shall be stated: None.

The communication between the independent director and the internal audit supervisor and the CPAs (materiality, means, and result of communication on the financial position and operation of the Company should be covered):

1. In accordance with the 2025 audit plan approved by the Board of Directors, the Company prepares monthly "Audit Reports" and submits them to the Chairman for review and approval. These have been completed on schedule each month. In compliance with the Regulations Governing the Establishment of Internal Control Systems by Public Companies, the audit reports and follow-up reviews are submitted to independent directors for inspection, and audit conclusions and related filings are provided for reference.
2. Each audit report must track its internal control deficiencies and the improvement of abnormal matters, and make a quarterly tracking report and submit it to each independent director.
3. The head of internal audit attends meetings of the audit committee and Board of Directors on a quarterly basis to report on the audit operations, and communicates with independent directors. The audit operations are also reported to the Board of Directors.

4.The communication between independent directors and the head of internal audit in 2025 is summarized as follows:

Date	Communication meeting	Communication matters	Communicate results
2025/03/12	Independent Director Chen Wei-Yu Independent Director Wang Tsai-An Independent Director Hu Yi-Fu Audit supervisor Hsu Hsin-Hsiang	1.Reported the audit results for Q4, 2024. 2.Motion for review of the Company's 2024 internal control self-evaluation results.	No comments during the meeting and was submitted to the Board of Directors for resolution
2025/05/12		1.Reported the audit results for January to April 2025. 2.2024 reporting status.	No comments during the meeting and was submitted to the Board of Directors for resolution
2025/8/12		1.Reported the audit results for May to June 2025.	No comments during the meeting and was submitted to the Board of Directors for resolution

We implement internal control mechanisms and control the implementation of various risk management measures. (IX) The Company has purchased liability insurance for all directors, and disclosed the information on the corporate governance section of the Market Observation Post System.	

Corrective action taken in response to the result of the Corporate Governance Evaluation conducted by the Corporate Governance Center of Taiwan Stock Exchange Corporation, and the priority of action on issues pending for corrective action in the most recent year.

(Those who are not included in the evaluated company need not be filled in)

1. The Company will continue to improve corporate governance. In response to the lack of scores in the 2023 "Corporate Governance Evaluation" indicators, the planning and description are as follows:

Item	Aspect	Improve the status
3.9	Has the Company uploaded the changes in shareholdings of insiders for the previous month to MOPS on or before the 10th of each month?	1. If the data is corrected after filing, the last filing date shall prevail. 2. If the 10th of the month falls on a holiday, no extension shall be granted. 3. In the event that the Financial Supervisory Commission, in response to consecutive holidays, announces adjustments regarding the requirement under Article 36, Paragraph 1, Subparagraph 3 of the Securities and Exchange Act for public companies to "announce and file their operational status for the previous month before the 10th of each month," When the deadline is extended, the requirements of this evaluation indicator shall also be correspondingly relaxed and extended; however, the extended deadline shall not be later than the 14th of the following month.
3.16	Does the Company disclose on its Chinese and English websites the list of major shareholders, as well as information related to finance, operations, and corporate governance?	1. The information must be independently established on the Company's website; links to external websites will not be eligible for scoring. 2. Requirement 1: If there are more than 10 shareholders each holding 5% or more of the Company's shares, the latest list of major shareholders shall be disclosed on the Company's website based on quarterly financial statement data.
4.21	Has the Company assessed risks or opportunities related to the community and implemented corresponding measures, and disclosed the specific measures taken and their effectiveness on the Company's website, in the annual report, or in the sustainability report?	1. Describe the scope of the Company's community (e.g., neighborhoods, townships, counties/cities). If it is not located in the Company's operating areas, please provide an explanation. 2. Disclose the measures adopted during the year in response to community-related risks or opportunities, such as allocating resources or addressing social and environmental issues in local communities through business activities, cultural initiatives, donations, corporate volunteer services, or other professional public welfare services, as well as promoting community development or appropriately hiring local personnel to enhance community engagement. 3. Disclose the implementation results of the aforementioned measures, such as the amount of investment or donations, number of participants involved, number of beneficiaries, the proportion of local personnel employed, or other specific quantitative performance indicators.

2.The Company's "Corporate Governance Evaluation" indicators have not been improved in 2024. The priority enhancements are as follows:

Item	Aspect	Improve the status
2.24	Has the Company established a cybersecurity risk management framework, formulated cybersecurity policies, specific management programs, and allocated resources for cybersecurity management, and disclosed such information on the Company's website or in the annual report?	Implementation of information security management system standards such as ISO 27001, CNS 27001, or other systems or standards with equivalent or higher effectiveness, with third-party certification obtained, and disclosure of the certification validity period (which must cover the end of 2025).
4.22	Has the Company invested resources to support domestic cultural development, and disclosed the methods of support and the results on the Company's website, in the annual report, or in the sustainability report?	1. Disclose the projects undertaken during the year in which the Company supports domestic performing groups, cultural and arts organizations, or artists, including exhibitions, performances, events, hardware and software equipment, or other forms of technical support. 2. Disclose the Company's contributions during the year to domestic film, television, or music in terms of production, distribution, broadcasting, screening, or exhibition, as well as the provision of equipment, facilities, technology, and other professional services that support the completion of such activities. 3. Disclose the Company's efforts during the year to encourage public engagement in cultural and artistic activities and to cultivate reading habits, such as providing support to art museums, museums, local cultural institutions, and domestic publishing, as well as supporting the organization of medium to large-scale cultural and reading activities, and participating in government policies or programs aimed at fostering cultural consumption habits. 4. The disclosure of support methods and results shall include specific details of support and implementation outcomes, such as the amount of support or investment, names of supporting or cooperating entities, activity names, dates and locations, number of sessions, number of participants or beneficiaries, or other specific quantitative performance indicators.
4.31	Has the Company conducted regular employee satisfaction surveys and disclosed their implementation status and improvement plans?	1. Disclose the results of employee satisfaction surveys conducted during the year and their implementation status (such as coverage rate, surveying entity, survey frequency, and survey period). 2. Disclose the content of improvement plans formulated based on the employee satisfaction survey conducted during the year.

Note 1: 2025 annual CPA independence and competency evaluation

Item	Evaluation result	Whether or not the independence criteria is met
1. Do accountants have direct or significant indirect financial interests in the Company?	No	Yes
2. Is there any financing or guarantee between the CPAs and the Company or the Directors of the Company?	No	Yes
3. Is there any close business relation and potential employment relation between the CPAs and the Company?	No	Yes
4. Whether accountants and their audit team members have held positions in the Company for the current or most recent two years as directors, managers or other positions with significant influence on the audit work.	No	Yes
5. Whether the CPAs have provided non-audit services to the Company that will directly influence the audit work.	No	Yes
6. Whether the CPAs have acted as intermediary of the stocks or other securities issued by the Company.	No	Yes
7. Whether accountants have acted as defenders of the Company or settled conflicts with other third parties on behalf of the Company.	No	Yes
8. Whether an accountant shares kinship with the directors, managers of the Company or those who have significant influence on the audit case.	No	Yes
9. Whether the accountant requires, has contracted, or has received any remuneration other than those specified.	No	Yes
10. The accountant has accepted the appointment of the Company as the auditing accountant for seven consecutive years.	No	Yes

Note: When assessing the suitability and independence of the CPAs, the Company needs to review and evaluate the Audit Quality Indicators (AQIs) provided by the accountants, including 5 major aspects, namely: professionalism, independence, quality control, supervision, innovation ability, etc. The 13 indicators roughly cover the items that are critical to the audit quality in order to assist the Company's Audit Committee to more effectively and objectively evaluate the audit quality of the CPA firm and the audit team in the course of selecting CPAs.

Note5：Important information regarding the company's governance operations：

(I) Employee rights: The Company adopts a people-oriented approach, complies with relevant labor laws and regulations, and safeguards the lawful rights and interests of employees. Comprehensive management systems are established for employee welfare, occupational safety and health, and education and training. Bonuses and employee remuneration are distributed annually based on operating results, aligning employees' individual interests with those of the Company and fostering a spirit of shared prosperity and mutual growth.

(II) Employee care: The Company places great importance on employee safety and health, providing healthcare and support services. Employees are entitled to health examinations, and a welfare committee is established along with related education and training to promote employee interaction.

(III) Investor relations: The Company has designated a spokesperson and an acting spokesperson responsible for external communications. Financial, operational, and material information is disclosed in a timely manner on the Company's website and MOPS, enabling investors to stay fully informed of the Company's developments and to maximize shareholder interests. The Company provides shareholders with the option to exercise voting rights electronically at the annual general shareholders' meeting.

(IV) Rights of stakeholders: The Company's website provides various communication and grievance channels to effectively respond to issues and suggestions raised by stakeholders, thereby safeguarding their lawful rights and interests.

(V) Implementation of risk management policies and risk measurement standards: The Company adopts a preventive approach to risk management. In addition to establishing rigorous internal control systems in accordance with the law

and conducting regular and ad hoc audits through internal audit functions, the Company also procures relevant insurance, such as property insurance, cargo transportation insurance, and public liability insurance, to diversify risks.

(VI) Implementation of consumer or customer protection policies: Under the policy of prioritizing consumers and customers, the Company has established internal regulations in accordance with relevant laws and regulations for employees to follow in execution.

(VII) Status of directors' liability insurance purchased by the Company:

1. The Company has purchased liability insurance for all directors to cover the compensation liabilities they may incur in the course of performing their duties in accordance with the law.
2. The Company has purchased "Directors' Liability Insurance" from Union Insurance Company, with a coverage amount of USD10 million. The principal terms of coverage for the insurance period from August 18, 2025 to August 18, 2026 were reported to the Board of Directors on August 12, 2025.

(VIII) Risk management policies and implementation: The Company's risk management policy aims to effectively identify, measure, assess, monitor, and control various risks, enhance risk awareness among all employees, and maintain potential risks within an acceptable level, in order to achieve an optimal and balanced trade-off between risk and return.

(2)Lin Wei-yun took office on2025/3/12, and resigned on , 2025/8/20 (Li Shu-hui temporarily took over).

(3)Lee Shu-hui took office on 2025/11/12.

Note 2：Audit supervisor：Xu Xinxiang resigned on 2025/9/20.(Jiang Huining (temporarily acting)，The new president, Zhuang Yuelong, will take office on 2025/12/24.

3.4.The Composition, Responsibilities and Operation of the Remuneration Committee:

3.4.1.Information of Remuneration Committee Members

Identity / Name / Condition			Professional Qualifications and Experience	State of Independence	Number concurrently serving as members of the Remuneration Committees of other publicly issued companies
Convener	Independent Director	Wang Tsai-An	Note 1	Note 2	1
Committee member	Independent Director	Hu Yi-Fu			0
Committee member	Independent Director	Chen Wei-Yu			2

Note 1: For length of service, professional qualifications and experience of members of the 6th and 7th Remuneration Committee who are independent directors, please refer to p.16 of this annual report for information on directors and supervisors (I), p. 22 for 4. Professional qualifications and independence of directors on p. 22.

Note 2: For independence of members of the 6th and 7th Remuneration Committee who are independent directors, please refer to 4. Professional qualifications and independence of directors on p.24. Therefore, taking into account the description of this section, the Company believes that the members of the Remuneration Committee are independent of the Company.

3.4.2.Information on the function of the Remuneration Committee

(1) There are three members on the 7th Remuneration Committee. Term of office: From June 11, 2024 until the term of the Board of Directors ends. From January 1 June 16, 2025 to December 9, 2025, the Remuneration Committee held 5 meetings (A). The qualifications and attendance of the members are as follows:

(2) There are 3 members on the 8th Remuneration Committee. Term of office: From December 24, 2025 until the term of

the Board of Directors ends. From December 24, 2025 up to the publication date of the annual report, the Remuneration Committee held **2** meetings (A). The qualifications and attendance of the members are as follows:

Term	Job title	Name	Actual attendance (B)	Number of delegates attending	Actual attendance rate (%) (B/A)	Remarks
7th term	Convener	Wang Tsai-An	5	0	100%	Appointed on 2024/6/11
	Committee member	Hu Yi-Fu	5	0	100%	
	Committee member	Chen Wei-Yu	5	0	100%	
8th term	Convener	Wang Tsai-An	1	1	50%	Appointed on 2025/12/24
	Committee member	Hu Yi-Fu	2	0	100%	
	Committee member	Chen Wei-Yu	2	0	100%	

Other matters to be recorded:

I. If the Board of Directors disapproves or amends the recommendations from the Compensation Committee, it shall state the date and duration of the meeting of the Board of Directors, details of proposals, the results of the resolutions of the Board of Directors and how the Company deals with the opinions of the Compensation Committee (if the salary and remuneration approved by the Board of Directors are higher than such amount recommended by the Compensation Committee, the Board of Directors shall state the difference and the reasons): Please refer to p.38 of this annual report.

II. If a specific member of the Compensation Committee has adverse or qualified opinions on the resolutions of the Compensation Committee on record or in written declaration, specify the meeting date, the session, the content of the motion, the opinions of all members, and the response to the opinions of the members: Please refer to p.38of this annual report.

3.4.3.Duties of the Remuneration Committee:

(1) The functions of the Company's Remuneration Committee are based on the attention of good managers, evaluating the remuneration policies and systems of directors, independent directors and managers of the Company, and meeting at least twice a year. Furthermore, it may hold meetings at any time as needed to make recommendations to the Board of Directors for its decision-making reference.

(2) The duties of the Company's Remuneration Committee

A. Periodically review the Remuneration Committee Charter and propose amendments.

B. Formulate and regularly review the Company's directors, independent directors and managers' annual and long-term performance targets and remuneration policies, systems, standards, and structures.

C. Regularly evaluate the achievement of the performance targets of the directors, independent directors, and managers of the Company, and evaluate and set the content and amounts of their individual salaries.

(3) When performing the official powers, the Remuneration Committee shall follow the principles listed below:

A. Ensuring that the remuneration arrangements of the Company comply with applicable laws and regulations and are sufficient to recruit outstanding talent.

B. The performance evaluation and remuneration of directors, independent directors and managers should refer to the usual level of payment in the industry. It also considers the time invested by the individual, the responsibilities assumed by the individual, the status of achieving personal goals, the performance of other positions, and the salary remuneration given by the Company to those in the same position in recent years. It also evaluates the rationality of the relationship between individual performance and the Company's operating performance and future risks through the achievement of the Company's short-term and long-term business goals and the Company's financial status.

C. Directors and managers should not be guided to engage in behaviors that exceed the Company's risk appetite in pursuit of remuneration.

D. The ratio of dividends to the short-term performance of directors and managers and the payment time of part of the variable salary shall be determined in consideration of the characteristics of the industry and the nature of the Company's business.

E. Members of this committee shall not participate in discussion and voting on their personal salary and remuneration decisions.

The salary and remuneration mentioned in the preceding two paragraphs include cash remuneration, stock options, dividends, retirement benefits or severance payments, various allowances and other measures with substantial incentives. Its scope should be consistent with the remuneration of directors, independent directors and managers in the Regulations Governing Information to be Published in Annual Reports of Public Companies.

If the remuneration of directors and managers of a subsidiary of the Company is subject to the approval of the Company's Board of Directors according to the subsidiary's hierarchical responsibility, the Board of Directors shall make recommendations before submitting it to the board for discussion.

3.4.4. The Remuneration Committee's discussion of matters and resolutions, and the Company's handling of the members' opinions:

Date/Meeting	Proposal content	Resolution result	The Company's handling of the opinions of the Remuneration Committee
6th meeting of the 7th term 2025/1/16	1. 1. Motion for suggestion on 2024 year-end bonus and distribution	All in attendance After consulting with the members present at the meeting, the motion was passed.	Proceed in accordance with the resolution
7th meeting of the 7th term 2025/3/12	1.Total employee remuneration and director remuneration distribution case for 2024 2. Proposal to amend the Articles of Association of Taisun Company 3. Accounting supervisor change case 4. Appointment of general manager of subsidiary PIN-TAI DISTRIBUTION ENTERPRISE CO., LTD.	All in attendance After consulting with the members present at the meeting, the motion was passed.	Passed in accordance with the resolution
8th meeting of the 7th term 2025/5/12	Motion for suggestion on the remuneration to senior executives	All in attendance After consulting with the members present at the meeting, the motion was passed.	Passed in accordance with the resolution
9th meeting of the 7th term 2025/8/12	Motion for appointment of General Manager of Taisun Enterprise (Zhangzhou) Foods Co., Ltd.	All in attendance After consulting with the members present at the meeting, the motion was passed.	Passed in accordance with the resolution
10th meeting of the 7th term 2025/11/12	1. Accounting supervisor change case 2. Motion for appointment of acting spokesperson	All in attendance After consulting with the members present at the meeting, the motion was passed.	Passed in accordance with the resolution
1st meeting of the 8th term 2026/1/29	1. Motion for nomination of the convener of the 8th Remuneration Committee 2. Taisun Enterprise Co., Ltd. payroll cycle proposal 3. Proposal on the remuneration recommendation for the 25th-term independent directors and the 8th Remuneration Committee 4. Motion for suggestion on the remuneration to the general directors of the 25th term 5. Motion for suggestion on the remuneration to the Chairman 6. Motion for suggestion on the remuneration to the vice chairman 7. Motion for suggestion on the remuneration to Audit Supervisor 8. Motion for suggestion on 2025 year-end bonus and distribution	All in attendance After consulting with the members present at the meeting, the motion was passed.	Passed in accordance with the resolution
2nd meeting of the 8th term 2026/3/11	1. Motion for total amount of 2025 remuneration to employees and directors. 2. Proposal on the distribution of the 2025 performance bonus for the General Manager of Taisun Enterprise (Zhangzhou) Foods Co., Ltd.	All in attendance After consulting with the members present at the meeting, the motion was passed.	Passed in accordance with the resolution

3.5. Information on members of the Nomination Committee and state of its operations: Not applicable

3.6. Promotion of sustainable development and Deviation from Sustainable Development Best Practice Principles for TWSE/TPEx Listed Companies and reasons thereof

Promotion item	Implementation status			Deviation from Sustainable Development Best Practice Principles for TWSE/TPEx Listed Companies and reasons
	Y	N	Summary description	
I. Has the company constructed a governance structure to promote sustainable development and established a dedicated (part-time) unit for the promotion of sustainable development, which is managed by senior management by authorization of the board of directors and is supervised by the board of directors?	✓		The Company's "CSR Committee" was renamed "ESG Committee" in March 2022. The Chairman is the chairman of the "ESG Committee". The other committee members are jointly served by the general manager and first-level supervisors, which is divided into four main groups. Senior executives in different fields serve as convener. They follow the policies formulated by the "ESG Committee" to develop the corresponding projects, supervise and manage the goals, results, commitments, and plans of sustainable operation and social responsibility, fulfill long-term commitments with stakeholders, and disclose information regarding sustainable development to the public. The Responsibility Office is responsible for coordinating and implementing the relevant ESG strategic goals, plans and actions, convening regular meetings to assist the committee in ensuring that all commitments are fulfilled on time The Responsibility Office also grasps the information communicated with relevant stakeholders by various groups and departments, and regularly discloses the work results. The Responsibility Office is divided into four major groups: "Corporate Governance", "Health and Safety", "Environmental Sustainability", and "Corporate Commitment". Regular management meetings are held through the Responsibility Office to discuss the status of each department's work, and regular reports to the ESG Committee for guidance. All implementation plans must be approved by the members of the Committee. In 2025, the ESG Responsibility Office reported to the Board of Directors on sustainability-related matters four times, covering progress on integrity management, information security, greenhouse gas inventory, sustainability reports, and sustainability information management procedures.	None
II. Does the Company follow the principle of materiality, conduct risk assessments on environmental, social and corporate governance issues related to company operations, and formulate relevant risk management policies or strategies?	✓		The Company's risk assessment boundary is based on Taiwan, which includes the Taipei Headquarters, Tianzhong Plant, and Baidou Farm. In 2025, the Responsibility Office of the ESG communicated with internal and external stakeholders in accordance with the principle of materiality for sustainability reports. By reviewing domestic and international research reports and literature, as well as integrating evaluation information from various departments and subsidiaries. We have formulated risk management policies for effective identification, assessment, monitoring, and control, and adopted specific action plans to reduce the impact of related risks. We have conduct stakeholder analysis and assessment, and formulated relevant risk management policies or strategies as follows: 1. Environment: Possible future carbon costs are estimated based on inventory of carbon indicators while replacing oil-fired boilers with natural gas-fired boilers. This was completed in Q2 2024. In addition, the solar energy assessment is also ongoing, and will be disclosed upon confirmation. 2. Social issues: Good time Knowledge+ aims to educate the general public about food knowledge, certification priorities, food sanitation regulations, and clarification of rumors. 3. Corporate governance: We have upgraded the corporate governance evaluation level and financial performance. After the Facebook fan page was hacked, Taisun developed the "Operating Standards for Marketing Social Media Platform Management" to improve the information security control mechanism. 4. Compliance with regulations: 0 cases related to corporate governance, 0 cases related to advertising and signage, 3 cases related to labor inspection, 0 cases related to occupational safety and health, and 3 cases related to environmental protection.	None
III. Environmental issues (I) Has the Company established a suitable environmental	✓		The Company's ESG Committee is the highest body for climate change management. The Chairman serves as the chairman and instructs the ESG Responsibility Office to execute the management of sustainability-related projects.	None

<tr><th>Y</th><th>N</th><th>Summary description</th></tr>
<tr><td>management system based on its industrial characteristics?</td><td></td><td></td><td>In terms of the environment, all operations are managed in accordance with the regulations of the Ministry of Environment. An annual internal GHG inventory is conducted in accordance with the ISO 14064-1 specification passed in 2022, and the carbon reduction effectiveness is tracked and publicly disclosed in the ESG report.</td><td></td></tr>
<tr><td>(II) Is the Company committed to improving the efficiency of energy use and using recycled materials with low impact on the environment?</td><td>✓</td><td></td><td>We began to use biomass boilers since 2014 aiming to reduce the consumption of oil boilers. Wood pellets generated from biomass boilers are used as a source of heat energy, reducing the number of slag and ash transportation, and they are also green energy, so carbon emissions are not calculated. However, after years of use, bio-based boilers are also facing the problem of steam efficiency. A natural gas boiler replacement project has been launched in 2023 to 2024 to replace oil-fired boilers with a cleaner energy source to perform production tasks, reduce pollution-related hazards, as well as carbon emissions.</td><td>None</td></tr>
<tr><td>(III) Does the Company assess the potential risks and opportunities of climate change for the Company now and in the future, and take measures?</td><td>✓</td><td></td><td>The Company’s ESG Committee is the highest body for climate change management. The Chairman serves as the chair and instructs the ESG Office to handle related sustainability project management. At the end of 2022, we have formally invited consultants to assist in the development of TCFD related assessments. We have not yet clearly announced the climate change strategy and goals, and still improve on-site energy equipment. After assessing the relevant indicators such as risks and opportunities, the company will report to the Board of Directors, and disclose it in the ESG report, and report the specific action measures and results.</td><td>None</td></tr>
<tr><td>(IV) Does the Company count greenhouse gas emissions, water consumption and the volume of total waste in the past two years, and formulate policies for greenhouse gas reduction, water management or other waste management?</td><td>✓</td><td></td><td>1. In an effort to implement ESG governance and strive for sustainable development, the Company’s GHG emissions, water consumption and total weight of waste and related reduction policies and statistics are as follows:
(1) GHG emissions: Will be disclosed in the 2025 ESG Report - chapter on energy conservation and carbon reduction management.
(2) Water Consumption:
Unit: thousand cubic meters

2. Base year data, reduction targets, promotion measures, and achievement status of carbon reduction, water, and waste:
(1) Carbon reduction: The Company plans to do the project of replacing natural gas boilers with heavy oil boilers will be carried out in 2024Q4, is estimated to reduce carbon emissions by about 611 tons CO2e/year, a reduction of 5%.
(2) Water reduction: To be disclosed in the chapter of 2025 ESG Sustainability Report - Water Resources Management and Wastewater Discharge section.
(3) Waste: In 2024, the food factory produced a total of 38 metric tons of non-resource waste (domestic waste), a decrease of 20 metric tons from the previous year. The waste recycling rate was 96.5%. The waste recycling rate was based on 96.5% in 2020. The waste recycling rate target for 2025 is over 98%.
</td><td></td></tr>
<tr><td>IV. Social issues
(I) Has the Company developed the relevant management policies and procedures in accordance with relevant regulations and international human rights conventions?</td><td>✓</td><td></td><td>The Company abides by the laws and regulations on labor rights and gender equality in the places where it operates, supporting and respecting internationally recognized human rights standards such as the United Nations Universal Declaration of Human Rights, the United Nations Global Covenant, and the International Labor Organization-Declaration of Fundamental Principles and Rights at Work. It has formulated the “Taisun Enterprise Co., Ltd. Declaration on the Protection of Human Rights” to put an end to any violations and violations of human rights, treating and respecting all employees, contractors and temporary personnel, and interns with dignity. Taisun’s business philosophy is “pragmatic, righteous, empathetic, and diligent”. We welcome partners who agree and support this business philosophy to join Taisun. The recruitment policy is based on human rights equality. All candidates have equal opportunities oriented to the ability of the examinee, and not to be treated differently based on race, color, gender, religion, politics, nationality or social origin, or physical and mental disabilities. Taisun echoes the sustainable development goals of the United Nations:
(Health and wellbeing)
◆ Implementing occupational safety and health management to ensure a safe working environment, and promoting the physical and mental health of employees.
◆ Continuously improving hardware facility standards and safety and health operating procedures, and actively constructing a safe and hygienic working environment to prevent occupational injuries and diseases, and to</td><td>None</td></tr>

			ensure labor safety and health. (Educational quality) ◆ Supporting employee growth and career development. Providing training plans, training time and funding subsidies, and encouraging employees to take the initiative to make arrangements, keep pace with the times, improve the completeness of their capabilities, and develop suitable talent. (Gender equality) ◆ Promoting gender equality measures to prevent gender violence. ◆ Adopting the principle of equal employment and prohibiting any form of discrimination. (Reduce inequality) ◆ Recruitment that upholds the principles of fairness, justice and openness to recruit suitable talent, and the recruitment policy is based on the equality of human rights. All candidates have equal opportunities, oriented to the ability of the examinee, not to be treated differently based on race, color, gender, religion, politics, nationality or social origin, or physical and mental disabilities. ◆ Continuously improving hardware facility standards and safety and health operating procedures, and actively constructing a safe and hygienic working environment to prevent occupational injuries and diseases, and to ensure labor safety and health.	
(II) Has the Company formulated and implemented reasonable employee welfare measures (including salary, vacation and other benefits, etc.), and appropriately reflects business performance or results in employee compensation?	✓		1. Employee benefits: In order to provide diversified benefits, we have established the “Employee Welfare Committee of Taisun Enterprise Co., Ltd.” and the “Employee Welfare Committee of Pin-Tai Distribution Enterprise Co., Ltd.” in accordance with the law. They are responsible for planning and implementing various welfare programs. In addition to the benefits that are provided in accordance with the law, we strive to create a happy workplace and provide benefits that are better than statutory ones to enhance the interaction among colleagues and team cohesion. The Company allocates 0.05% of its total revenue as a welfare fund every month to support welfare measures. At the same time, the Employee Welfare Committee meetings are held on a regular basis. In 2025, the Company provided subsidies for recreational entertainment, welfare assistance, and education, totaling NTD 8,145,416. The Company complies with the statutory leave system and attaches great importance to the management of employees’ working hours. The Company provides a number of welfare measures such as lunch subsidies, employee accommodation, flexible working hours, etc., and assigns visually impaired masseuses to enter the Company to provide services to colleagues. We also provide an EAP employee assistance program to take care of employees’ physical and mental health. We also provide maternity leave, paternity exams, and paternity leave in accordance with the law to ensure that employees have sufficient rest and support at this critical stage. We have formulated the “Pension Supervisory Committee Charter” and “Retirement Management Regulations”. At the same time, we implement the re-appointment system for retired employees to provide opportunities for employees to continue to participate in the Company’s affairs and maintain their vitality. 2. Employee remuneration policy We share the profits with our employees with the Company’s outstanding performance. In addition to dividends to shareholders, we also distribute mid-year remuneration to employees in recognition of their hard work in the previous year. According to the Company’s Articles of Incorporation, remuneration to employees shall not be contributed less than 2%. In addition to the immediate bonus for work results, we also distribute year-end bonus based on the results of the performance appraisal at the end of the year, and provide opportunities for promotion and salary adjustment for top performers. The Company also organizes annual commendation meetings to recognize outstanding teams or individuals.	None

			supplier quality evaluation plan, and uses cooperation as the foundation for common growth. (1) Selection of new suppliers: The COA of raw materials must meet the relevant specifications and the raw materials and products must meet the requirements of CNS and health regulations. (2) The current evaluation requirements: Compliance with labor standards, no child labor, whether food safety plans and implementations are clearly defined, and whether industrial safety and health plans and implementations are clearly defined. At the same time, we actively counsel all suppliers to upgrade the food safety quality management system, improve the quality system management level, and achieve the concept of coexistence and common economic prosperity.	
V. Does the Company refer to the internationally-prepared reporting standards or guidelines, preparation of sustainability reports and other reports that disclose the company's non-financial information? Did the preliminary report obtain the confidence or assurance opinion of the third-party verification unit?	✓		The Company has compiled an annual Corporate Social Responsibility (CSR) report since 2015. The name was changed to the "ESG Sustainability Report" in 2021 to disclose the effectiveness of ESG implementation. The report contents are prepared in accordance with the "Taiwan Stock Exchange Corporation Rules Governing the Preparation and Filing of Sustainability Reports by TWSE Listed Companies", "Sustainable Development Best Practice Principles for TWSE/TPEx Listed Companies" and the standards set by the Global Reporting Initiative (GRI). Starting from 2023, we have entrusted Ernst & Young Taiwan (EY Taiwan before 2024) to carry out independent limited assurance in accordance with Bulletin No. 1 of the Confirmation Standards issued by the Accounting Research and Development Foundation of the Republic of China, the "Audit or Review of Assurance Cases for Non-historical Financial Information". Related report information is disclosed at, (1) The Company's website: https://www.taisun.com.tw/corporate/calendar-year-report/ (2) Public information website: https://mops.twse.com.tw/mops/web/t100sb11	None

VI. If the Company has instituted the sustainable development best practice principles in accordance with the "Corporate Social Responsibility Best Practice Principles for TWSE/TPEx Listed Companies," specify the implementation of these principles and the variation with the Sustainable Development Best Practice Principles for the TWSE/TPEx-listed Companies:

The Company operates in accordance with the self-established Sustainable Development Best Practice Principles, and there is no significant deviation.

VII. Other important information to facilitate understanding of the promotion of sustainable development operations:

(I) Environmental aspect:

1. Wastewater discharge quality (in compliance with government regulations): We have formulated stringent standards for the inspection of treatment functions and discharge water concentration of each factory. In 113, the BOD, COD and SS of wastewater discharged all met the

Promotion item	Implementation status			Deviation from Sustainable Development Best Practice Principles for TWSE/TPEx Listed Companies and reasons
	Y	N	Summary description	

government discharge water quality standards.

Status of wastewater management in food factories:

Item	National standard	Year	January	April	July	October	Average
BOD (biological oxygen demand)	<30mg/L	2024	8.2	5.9	9.4	24.8	12.1
		2025	21.2	22.7	28.3	17.5	22.4
COD (chemical oxygen demand)	<100mg/L	2024	35.5	19	34.8	92.6	45.5
		2025	87.7	71.0	97.6	58.4	78.7
SS (suspended solids)	<30mg/L	2024	4.7	4.7	6	26	10.4
		2025	23.6	18.8	15	14.2	17.9

2.In 2025, the company incurred fines of NT$6,000 for violating the Waste Disposal Act, NT$6,000 for violating the Water Pollution Control Act, and NT$370,000 for violating the Air Pollution Control Act, all of which were paid before December 2025. The company takes these matters very seriously and has taken the following corrective measures to prevent similar situations from recurring:

- The company has internally communicated the Waste Disposal Act, requiring all process unit changes to be reported to the relevant authorities for legal compliance. Livestock farms have implemented wastewater treatment and discharge quality control in accordance with the Water Pollution Control Act, ensuring compliance with regulations. For steam-producing facilities, the company has ensured complete process operation records and exhaust gas emission control in accordance with the Air Pollution Control Act, ensuring compliance with regulations.
- The company is also preparing for ISO 14001 Environmental Management System certification. It has already implemented the Regulatory Cloud Regulatory Audit System to review relevant environmental regulations and identify improvement plans based on environmental considerations.
- Regarding potential issues involving illegal orders, in addition to taking proactive corrective measures, our company has also assigned dedicated personnel to conduct regular inspections of relevant processes. If any discrepancies are found, our company will immediately report and rectify them to prevent similar incidents from occurring.

(II) Product aspect:

As a member of the food manufacturing industry, Taisun Enterprise strictly examines and selects raw material suppliers. In addition to being a legitimate business operator, a supplier must also meet Taisun's production requirements and have both reasonable prices and high coordination ability. The procurement process of raw materials must be reviewed and confirmed by relevant units such as R&D and quality assurance and grow together with suppliers through the method of supplier evaluation. It also reassesses or cancels partnerships for abnormal suppliers and implements supplier management policies.

1.In 2025, 125manufacturers have actually implemented the evaluation (88 raw material manufacturers and 37 material manufacturers). This accounts for 79% of the total purchase amount of raw materials.

2.Taisun Enterprise actively counsels suppliers to upgrade the food safety quality management system. At present, the rate of penetration rate of GFSI-approved suppliers is 15.7%. We will continue to guide all suppliers to introduce international certification, improve the quality system management level of partners, and achieve the concept of coexistence and common economic prosperity.

Promotion item	Implementation status			Deviation from Sustainable Development Best Practice Principles for TWSE/TPEx Listed Companies and reasons
	Y	N	Summary description	

3.In 2025, there were 11 cooperating OEMs, one more than that in 2025. We continue to promote the food safety and quality of OEMs.
4.An evaluation plan is drawn up every year, and on-site inspection at the outsourced factory is used as reference information for follow-up cooperation. Of the 11 outsourced factories that performed on-site evaluations in 2024, 11 outsourced factories were rated as B-level.
5In response to the Company's operational needs and in compliance with government regulations. We will continue to upgrade the equipment of all points in the factory to achieve energy saving and avoid any crisis caused by outdated equipment. The health and safety of employees in the factory are also taken into account, and the workplace safety is also maintained so that employees have a safe working environment.
6. In May 2023, Taisun launched label-free Pure Water to reduce the use of plastic wrapping.
7. In September 2023, sesame extract was added to Taisun High Gluten Rice Bran Oil to help improve sleep quality.
8.List of food safety certifications obtained by Taisun:

Product category	International certification		National certification	Halal certification
				
Canned snacks	100%	100%	79%	73%
Fresh house snacks & drinks	100%	100%	91.85%	70.52%
Beverage products	28.83%	51.37%	42.08%	27.46%
Tetra Pak beverages		100%	94.52%	
Packaged drinking water		26.54%	100%	
Oil products	99.59%	99.59%	41.61%	95.74%
Carbonated drinks	27.91%	27.91%	55.06%	

(III)Food safety and national nutrition promotion
Taisun Oil Products have obtained 9 clean product certifications and 1 clean product certification, in line with the concept of healthier products.
1.Performed production line upgrade: Build PE and aluminum can lines to create new products and packaging on par with trends.
2.To effectively put energy into good use, we have conducted old equipment replacement, process efficiency improvement and total energy control. The Food Plant added natural gas boilers in Q4 2024, with one oil-fired boiler also replaced.
3.GHG inventory implementation (2020-2021) has been performed to meet future net zero goal and carbon tax basic issues. In 2022, we obtained the ISO14064-1 certification and subsequently conduct internal inventory according to the certification regulations.
4.Our waste recovery program has been initiated. By researching for ways to effectively reduce and reuse waste, waste can be the next raw material for companies. Based on this idea, we have identified 3 directions for the development of waste.
5.We will enhance talent development plans and factory improvement plants to nurture talent and retain talent to ensure productivity.

Promotion item	Implementation status			Deviation from Sustainable Development Best Practice Principles for TWSE/TPEx Listed Companies and reasons
	Y	N	Summary description	
6. Promote a healthy society in the midst of a pandemic: ① We supported health care and social service groups in the midst of a pandemic: We initiated a company-wide donation event for supplies in the midst of COVID-19 by donating 800 boxes of products to hospitals and social service organizations. ② We sponsored the Care Cup, the sports development of schools in Taisun district, New Taipei City, CTBC Brothers, Formosa Xtreme Triathlon, Formosa Taishin Dreamers and street dance events. We also supported the Taiwan Rice Heaven; its first ever online race in a decade. ③ Taishan Cultural Foundation Online Courses and Lectures (Online Processing) Taishan Enterprises annually allocates funds to the "Taishan Cultural Foundation," a long-term, consistent effort that supports the Foundation's mission of "establishing positive beliefs and creating a harmonious life." Since its establishment, the Foundation has been dedicated to spiritual growth and life education, disseminating positive values and beliefs, and establishing a society-wide culture of goodness. It has consistently given back to society through concrete actions, contributing to a sense of happiness and stability. The Foundation's main work includes: = Spiritual Growth Services, Practicing the Values of Truth, Goodness, and Beauty: Conducting mental and physical health lectures and publishing the magazine "Taishan True Love Family." = Life Education Services, Touching Lives with Life: Conducting storytelling sessions by life fighters, summer life education workshops for teachers, and the Little Taishan Scholarship. = Family Education Services, Parental Growth is Children's Happiness: Conducting parenting lectures, hoping that children's healthy and happy growth begins with parents' self-growth.				

3.7. Climate-related information of TWSE/TPEx-listed companies

1. Implementation of climate-related information

Item	Implementation status
1. Describe the monitoring and governance of climate-related risks and opportunities between the Board and management.	1. The ESG is authorized by the Board of Directors to discuss and evaluate the Company's climate change related discussions and assessments. The ESG Committee jointly resolve the climate change-related responses and implement with the consent of the Chairman.
2. Describe how the identified climate risks and opportunities affect the Company's business operations, strategies, and finance (short-, medium-, and long-term).	2. The "Climate Change Response Act" imposed a carbon fee on large carbon emitters in 2025. This may increase the operating cost of Taisun in the future. However, this does not affect the overall operation for the time being. The Company has completed the 2022 GHG inventory education and training, and planned the energy equipment replacement project, and has set the following carbon reduction targets for 2023: ➢ Short-term: Implementation of carbon management and monitoring system. ➢ Medium-term: Outperforming peers in carbon emissions management. ➢ Long-term: Establish an environment-friendly factory as a leading example of management.
3. Describe financial impacts of extreme climate events and transformational actions.	3. Extreme weather may increase the frequency of typhoons and floods which may affect the factory. If the oil waste caused by high temperature is not properly managed, it is very likely to spontaneously combust. In addition, storms will also increase the cleanliness of water sources and damage equipment, which in turn affected the delivery schedule and increased insurance expenses. In terms of transformational actions, the carbon waste will be levied in accordance with the "Climate Change Response Act" in the future, resulting in an increase in expenses, which will affect the financial revenue.
4. Describe how climate risk identification, assessment, and management procedures are integrated into the overall risk management system.	4. The Company's ESG Committee launched the "TCFD Climate Change-Related Financial Disclosure" training in 2022. The ESG Committee convenes on a regular basis to discuss and identify transformation risks (policy and regulations, technology, market, reputation), physical risks (immediate risks, long-term risks), and opportunities (resource efficiency, energy sources, products/services, market, and resilience).
5. If the scenario analysis is used to assess the resilience to climate change risks, the used scenarios, parameters, assumptions, analysis factors, and main financial impacts shall be described.	5. In order to strengthen the understanding of the impact of climate-related risks and opportunities on Taisun, the TCFD framework has been introduced, with training of "TCFD Climate Change-Related Financial Disclosure" in 2022 conducted. In the future, we also plan to conduct analysis and seminars on climate-related scenarios and quantify the financial impact of climate-related risks.
6. If transition plans exist to manage climate-related risks, specify the contents of the plans, as well as the indicators and targets used to identify and manage physical risks and transition risks.	6. The following are the indicators and targets for managing physical risks and transition risks: ➢ Starting in 2020, the inventory of GHG emissions has been promoted in accordance with ISO 14064-1:2018. ➢ Old equipment has been replaced in factories. Budgets for process improvement and equipment renewal are compiled every year to reduce energy consumption through energy-saving equipment. ➢ Priority is given to externally purchased electricity, and the average power consumption and the number of boxes produced each year is used to promote the reduction of power consumption year by year.

Item	Implementation status
	➢ The ratio of annual carbon emission figures to the total weight of sales is the standard, which contributes to the reduction of carbon emission figures every year. ➢ Raise the frequency of watering Chinese fountain grass with waste liquids from the farm, and reduce the water consumption for treatment. ➢ Increase the recycling rate of commercial waste (current stage > 95%). 7. Taisun has not yet formulate an internal carbon pricing policy.
7. If using internal carbon pricing as a planning tool, specify the basis for setting the pricing. 8. If climate-related goals have been set, specify the activities covered, the scope of GHG emissions, the planned schedule, and the progress made in each year. If carbon credits or renewable energy certificates (RECs) are used to achieve the relevant targets, the source and quantity of carbon credits to be offset or the quantity of renewable energy certificates (RECs) shall be specified. 9. Greenhouse gas inventory and assurance status, as well as reduction goals, strategies, and concrete action plans (indicated separately in 1-1 and 1-2).	8. The transformation risks caused by carbon emissions may lead to increased operating costs. Therefore, Taishan plans to increase the proportion of green energy use. For example, in Category 1 (oil fuel), oil-fired boilers will be replaced with natural gas boilers, which will be completed in the fourth quarter of 2024 to achieve the short-term strategic goal (50% of boilers over 20 years old will be replaced). Based on the boiler oil consumption and steam output in 2024, the completion of the natural gas boilers will reduce carbon emissions by about 611 metric tons/year, which is about 5% of carbon emissions.

1-1 GHG inventory and assurance for the most recent two years

1-1-1 GHG information: The GHG emission volume (metric tons CO2e), intensity (metric tons CO2e/NTD million) and data coverage for the most recent two years are as stated. For details, please refer to XX Energy Conservation and Carbon Reduction Management of the 2025 ESG Report.

1-1-2 GHG assurance information: A description of the assurance status for the most recent two years as of the publication date of the annual report, including the scope of assurance, institutions of assurance, criteria of assurance, and opinions of assurance:

1-1-2.1 In June 2022, Taisun conducted a 110 GHG emission verification by British Standards Institution Singapore Ltd. (Taiwan) and obtained a verification statement. The specifications of the inventory were based on ISO 14604-1:2018 The Roadmap for Sustainable Development for TWSE/TPEx Listed Companies and the boundaries of the inventory included five sites: “Taipei Chang-An Building”, “Tanaka Food Factory,” “Tianzhong Oil & Fat Factory”, “Tianzhong Feed Factory,” and “Tianzhong Administration Building”. For Scope 1 and Scope 2, the total GHG emissions were 9,491.596 tons CO2e. The second ISO14064-1 certification is expected to be conducted in 2026.

1-1-2.2 All GHG inventories for 2023 and 2024 were self-inventoried in accordance with ISO 14064-1, which will be disclosed in Chapter Energy Saving and Carbon Reduction Management. of the 2025 ESG Report

1-2 GHG reduction targets, strategies, and specific action plans: Describe the GHG reduction base year and its data, reduction targets, strategies, and concrete action plans, and achievement of the reduction targets.

Taisun began to install natural gas boilers in 2023 - 2024 and old oil-fired boilers will be replaced to reduce GHG emissions; the mid- and long-term goal is to replace aged equipment to reduce energy consumption and carbon emissions.

3.7. Ethical business performance conditions, as well as differences and reasons for differences with Ethical Corporate Management Best Practice Principles for TWSE/GTSM Listed Companies

Evaluation items	Operating status			Reasons for differences with Ethical Corporate Management Best Practice Principles for TWSE/TPEx Listed Companies
	Y	N	Summary description	
I. Enactment of ethical management policy and program				None
(I) Has the Company specified its policy and method for the implementation of ethical corporate management in its internal rules and regulations and external documents, and have the Board and the management of the Company promised to pursue the policy of ethical corporate management?	✓		(I) Based on the management philosophy of integrity, transparency and responsibility, the Company has formulated a policy based on honesty and integrity. The "Taisun Enterprise Co., Ltd. Code of Ethical Management" (these Principles became effective after being passed by the Board of Directors' meeting held on May 11, 2020) amended by resolution of the Board of Directors, and internal rules and regulations including the "Personnel Management Rules" clearly require employees to abide by honesty and integrity. The Company has also established a sound corporate governance and risk control mechanism to create a sustainable business environment, requiring the Board of Directors, management, and all colleagues to comply. In addition, the Company discloses the "Code of Ethical Management" and its related regulations on the MOPS and the Company's website.	None
(II) Has the Company established an assessment mechanism for the risk of dishonesty, regularly analyzing and evaluating business activities with a high risk of dishonesty in the business scope, and formulated a plan to prevent dishonesty, and cover at a minimum the preventive measures for various acts under Article 7, Paragraph 2 of "Ethical Corporate Management Best Practice Principles for TWSE/TPEx Listed Companies"?	✓		(II) The "Taisun Enterprise Co., Ltd. Procedures for Ethical Management and Guidelines for Conduct" passed by resolution of the Board of Directors on December 24, 2020 stipulates the prevention of unethical conduct, while also covering the items listed in Article 7, Paragraph 2 of the "Ethical Corporate Management Best Practice Principles for TWSE/GTSM Listed Companies" published by the TWSE or other business activities with higher risk of unethical conduct within the Company's business scope so as to regulate relevant preventive measures. We also require relevant units to implement these Principles. In the event of an employee violating the principle of ethical management, it shall be reported in accordance with the "Regulations Governing the Implementation of the Reporting System". The matter will be examined by the Ethical Management Team, and according to the severity of the matter, the punishment will be announced. Acceptance unit: Corporate Governance Unit. In addition, the Company is civilian food manufacturing enterprise and pays special attention to Article 7, paragraph 2, subparagraph 7 of the "Ethical Corporate Management Best Practice Principles for TWSE/TPEx Listed Companies" that cites "Damage directly or indirectly caused to the rights or interests, health, or safety of consumers or other stakeholders in the course of research and development, procurement, manufacture, provision, or sale of products and services". The preventive measures and promotion points are summarized as	

Evaluation items	Operating status			Reasons for differences with Ethical Corporate Management Best Practice Principles for TWSE/TPEx Listed Companies
	Y	N	Summary description	
			follows: ● Regulatory compliance: In order to improve the management of food safety, we keep a close eye on changes in regulations by visiting the websites of the FDA and Law and Regulations Database, Taiwan. We also carry out product compliance inspections, calibrate relevant operating standards and give immediate warning when a product is not in compliance with the regulations. At the same time, the complete information on packaging labeling is also reviewed and tests are periodically traced and tracked, achieving the benefits of source management and rapid queries. ● Food Safety Center: As a means to improve the Company's food safety organization, effectively control product quality and implement management at source, at Taisun, we have established the "Food Safety Center" to promote food safety policy-related systems and certifications. By carrying out the Company's food safety self-management plan, food hygiene monitoring and supplier audits, while also monitoring the effectiveness and suitability of the management system, we ensure our quality and food safety are worry-free. ● Quality certification: We regularly strive for certifications and continue to renew those with global standards to ensure high food safety standards and compliance. ● Laboratory upgrade: In 2021, The Quality Assurance Department of Taisun Enterprise Co., Ltd. obtained a TAF (Taiwan Accreditation Foundation) certification, with a certification number 3836 and certificate number L3836-210602. In addition to the Company's own TAF laboratory, products are also tested by external institutions in accordance with the regulations. ● Supplier management: An evaluation plan is scheduled every year. In addition to attaching importance to the quality of the supplier's products, the supplier's implementation of social responsibility is included in the evaluation items of operation and management. At the same time, we actively counsel all suppliers to upgrade the food safety quality management system, improve the quality system management level, and achieve the concept of coexistence and common economic prosperity. ● Quality management system: A complete food safety and quality management system has been built, and the system is monitored by professionals and precise equipment. In compliance with legal requirements, 100% of the products are built with a paper tracking and tracing system. At the same time, all of them have passed external inspections, and the improvement of defects was in full compliance with the regulations. ● Occupational Safety and Health Committee: In an	

Evaluation items	Operating status			Reasons for differences with Ethical Corporate Management Best Practice Principles for TWSE/TPEx Listed Companies
	Y	N	Summary description	
			effort to prevent occupational hazards, maintain the quality of workplace, while at the same time ensuring the safety and health of our colleagues at work to further improve the safety and health management standards, we have established the "Occupational Safety and Health Committee" as required by Article 23 of the "Occupational Safety and Health Act" and Article 10 of the "Occupational Safety and Health Management Measures" to discuss, coordinate and recommend on matters associated with occupational safety and health. Through the management functions of planning, implementation, evaluation and improvement measures, our occupational safety and health management system is enhanced, achieving the objective of sound safety and health management.	
(III) Does the Company specify the operating procedures, behavior guidelines, disciplinary penalties and grievance system in the plan to prevent dishonesty, and implement it, and regularly review and revise the pre-disclosure plan?	✓		(III) In the "Taisun Enterprise Co., Ltd. Procedures for Ethical Management and Guidelines for Conduct", the Company has established measures to prevent unethical conduct. There are also clear operating procedures, guidelines for conduct, disciplinary and complaint systems stipulated in the measures. Also, in order to ensure the implementation of ethical management, the HR Administration Unit has been designated as the dedicated unit responsible for the promotion and monitoring of the implementation of ethical management policy as well as the preventive measures. The HR Administration Unit periodically reviews and reports to the Board of Directors on the status of implementation, measures adopted and effectiveness of promotion.	None None
II. Implementation of ethical management				
(I) Does the Company assess a trading counterpart's ethical management record and expressly state the ethical management clause in the contract to be signed with the trading counterpart?	✓		(I) Before establishing a business relationship with others, the Company evaluates the legitimacy of the counterparty, fully understands the ethical management situation of the counterparty, and whether there has been a record of dishonest behavior. Ensure that its business operations are fair, transparent and it will not request, offer or accept bribes. In 2025, the signing rate of "Integrity and Sustainability Commitment" for new suppliers with a transaction amount over $100,000 was 100%.	None
(II) Has the Company set up a special unit under the board of directors to promote corporate ethical management, and regularly reports (at least once a year) to the board of directors on its ethical management policies and plans to prevent dishonesty and supervision and implementation?	✓		(II) The HR Administration Unit has been appointed as dedicated unit for ethical management and is responsible for the formulation and supervision of the ethical management policy as well as the prevention plan. The Unit reports to the Board of Directors at least once a year on the ethical management policy and the prevention plan for unethical conduct and the supervision situation of the implementation. On December 24, 2025, the Company's Ethical Corporate Management Team reported to the Board of Directors on the implementation status, measures adopted and promotion results in 2025.	None None

Evaluation items	Operating status			Reasons for differences with Ethical Corporate Management Best Practice Principles for TWSE/TPEx Listed Companies
	Y	N	Summary description	
(III) Has the Company made policies for the prevention of the conflict of interest, and provided the channels for expressions, and has it properly implemented this system?	✓		(III) The "Taisun Enterprise Co., Ltd. Code of Ethical Management" and the "Taisun Enterprise Co., Ltd. Ethical Corporate management Best Practice Principles" set forth by the Company have clearly defined policies to prevent conflicts of interest and provide appropriate channels for presentation, and require relevant units of the Company to implement.	
(IV) Does the Company have an effective accounting system for the implementation of ethical management, internal control system, and the evaluation result of the risk of dishonesty by the internal audit unit, to formulate relevant audit plans, and check the compliance with the plan to prevent dishonesty, or entrust an accountant to perform the audit?	✓		(IV) The Company has established various accounting systems and internal control systems in order to implement ethical management. Furthermore, the audit unit is responsible for operations to assist the Board of Directors and managers to inspect, review and strengthen the promotion and implementation of the Company's internal control systems. The audit unit performs the audit work in accordance with the annual audit plan approved by the Board of Directors. The audit supervisor sends a written report to independent directors the following month after the audit project (or tracking project) is completed. Furthermore, it regularly reports to the audit committee and the Board of Directors on the implementation of the audit business and the results of the annual self-assessment of the internal control system.	
(V) Has the Company provided internal and external training on topics of ethical corporate management at regular intervals?	✓		(V) The Company values ethical management and corporate social responsibility. To do so, we promote a work culture of ethical management and responsibility when an employee begins working with us. In 2025, we carried out and awareness development (covering "Code of Ethical Management", "Ethical Corporate management Best Practice Principles" and "Procedures for the Prevention of Insider Trading") on topics associated with ethical management issues. A total of 1,462 employees took part totaling 2,234 hours.	None None
III. Status of the Company's whistleblowing system				
(I) Has the Company established substantive systems for reporting and rewards for facilitating the reporting of unethical practices, and appointed designated persons for dealing with the persons being reported?	✓		(I) The Company has established and announced internal independent reporting mailboxes and special lines in accordance with the relevant provisions of Article 23 of the "Code of Ethical Management" of the whistleblowing system, and designated staff and units are responsible for reporting. Employee complaint and ethics reporting mailbox: taisunhr1999@taisun.com.tw Receiving unit: Human resources unit, unit supervisor Ethics Mailbox Link: https://www.taisun.com.tw/ethics-mailbox/ Acceptance unit: Corporate Governance Unit	None None
(II) Has the Company established standard operating procedures for accepting complaints, follow-up measures to be taken after the investigation is completed, and relevant confidentiality mechanisms?	✓		(II) The standard operating procedures for the investigation of the reported matter must be properly kept, including the acceptance of the reported case, the investigation process, the investigation results and the records of related documents. The identity of the informant and the content of the report are sealed	

Evaluation items	Operating status			Reasons for differences with Ethical Corporate Management Best Practice Principles for TWSE/TPEx Listed Companies
	Y	N	Summary description	
(III) Has the Company taken measures to protect whistle-blowers from retaliation due to reporting?			and kept confidential. (III) The review process should be conducted in an undisclosed and confidential manner, so as to ensure the privacy rights of the informant. If it is not conducted in a confidential manner in accordance with regulations, the Company will report the matter and mete out punishment.	
IV. Enhancing Information Disclosure Has the Company, on its website and on the Market Observation Post System, disclosed the content and promotion effectiveness of its Ethical Corporate Management Best Practice Principles?	✓		The Company has disclosed Code of Ethical Management related content on both the company Website and the Market Observation Post System.	None
V. If the Company has instituted the corporate social responsibility best practice principles in accordance with the "Ethical Corporate Management Best Practice Principles for TWSE/TPEx Listed Companies," specify the implementation of these principles and the variation with the Corporate Social Responsibility Best Practice Principles for the TWSE/TPEx-listed Companies: 1. The "Taisun Enterprise Co., Ltd. Code of Ethical Management" set by the Company are based on the provisions of the "Ethical Corporate Management Best Practice Principles for TWSE/TPEx Listed Companies" issued by the Stock Exchange and are also required in operation of relevant units of the Company for required implementation. Furthermore, they should internalize the requirements of the Ethical Corporate Management Best Practice Principles into daily operation management. There is no major difference between actual operation and the code. 2. Based on the provisions stipulated in Article 17 of the Company's Code of Ethical Management, the Company has set up a dedicated unit under the Board of Directors to improve the management of ethical management. The Unit is responsible for the formulation and supervision of the ethical management policy as well as the prevention plan. The "Code of Ethical Management" and the "Procedures for Ethical Management and Guidelines for Conduct" have been disclosed on the Company's website.				
VI. Other information that enables a better understanding of the Company's ethical corporate management: (e.g. review and amendments on the ethical corporate management best-practice principles established by itself): The Company always pays attention to the development of relevant standards for ethical management, and reviews and improves the Company's relevant policies to enhance the effectiveness of the Company's ethical management.				

3.8. Inquiry methods of corporate governance codes and related regulations:

The Company has formulated a corporate governance Code of Practice, Code of Ethical Management, Corporate Social Responsibility Best Practice Principles, and related regulations. All have been published on the Market Observation Post System (http://mops.twse.com.tw) and the Company's official website (http://www.taisun.com.tw) for investors to check, and we will continue to promote the operation of corporate governance.

3.9. Other significant information that will provide a better understanding of the state of the company's implementation of corporate governance:

Please refer to the Company's Website: http://www.taisun.com.tw

3.10. Implementation of the internal control systems:

1. Statement of Internal Control System

Taisun Enterprise Co., Ltd.

Declaration of internal control systems

Date: March 11, 2026

The Company's internal control system for 2025, based on the results of self-assessment, is hereby declared as follows:

I. The Company acknowledges and understands that the establishment, implementation and maintenance of the internal control system are the responsibility of the Board and managers of the Company, and that such a system has been implemented within the Company. The purpose of the system is to reasonably ensure that the effectiveness and efficiency of operations (including profits, performance, and protecting the security of assets), reliability, timeliness, transparency, and regulatory compliance of reporting, as well as the compliance with applicable laws, regulations, and bylaws are achieved.

II. The internal control system is designed with inherent limitations. No matter how perfect the internal control system is, it can only provide a reasonable assurance to the fulfillment of the three objectives referred to above. Moreover, the effectiveness of the internal control system could be affected by the changes of environment and circumstances. However, the Company's internal control system has a self-supervision mechanism. Once the missing element is recognized, the Company takes corrective action.

III. The Company judges the effectiveness of the internal control system in design and enforcement in accordance with the "Regulations Governing Establishment of Internal Control Systems by Public Companies" (hereinafter referred to as "the Criteria"). The Criteria are instituted for judging the effectiveness of the design and enforcement of internal control system. There are five components of effective internal control as specified in the Criteria with which the procedure for effective internal control are composed by five elements, namely, 1.Control Environment, 2. Risk Evaluation, 3. Control Operation, 4. Information and Communication, and 5. Monitoring. Each of the elements in turn contains certain audit items. Please refer to the "Criteria" for details.

IV. The Company has adopted the said Criteria to validate the effectiveness of its internal control system design and execution.

V. For relevant deficiencies and improvement for deficiencies found in the Company's assessment in internal control, please refer to the Attachment.

VI. Based on the evaluation result of the preceding item, regarding the Company's Internal Control System on December 31, 2025 [Note 2](encompassing the supervision and management of subsidiaries), and including understanding of the effectiveness of operations and the degree to which the efficiency with which objectives are achieved, it is believed that the reporting is reliable, timely, transparent and in compliance with the relevant specifications and relevant laws and regulations, and the design and execution of the relevant Internal Control System are effective and it can reasonably ensure that the above goals are achieved.

VII. This Statement will be a major part of the Company's annual report and prospectus, and will be made publicly available. If there is any fraud, concealment or unlawful practice discovered in the content of the aforementioned information, the company shall be liable to legal consequences under Article 20, Article 32, Article 171 and Article 174 of the Securities and Exchange Act.

VIII. This Statement has been approved by the Company's Board of Directors at the meeting held on March 11, 2026, at which this Statement was unanimously endorsed by all 9 attending directors with zero dissension.

Taisun Enterprise Co., Ltd.

Chairman: Liu Wei-Lung

General Manager: Shen Yi-Chun

3.11. In the most recent year and up to the date of publication of the annual report, if the Company and its internal personnel have been punished according to law, and the punishment has been imposed on internal personnel by the Company for violation of the internal control systems, major defects and improvements: None.

TAIWAN NIKOMART CO.,LTD	2,960,186	0.59%

1.3.Company dividend policies and implementation status

1.3.1.Dividend policy stipulated in the Company's Articles of Incorporation:

For the earning distribution, when the Company settles the year with surplus, after paying all taxes required by laws, the deficits from previous years shall be compensated; then, 10% of the balance shall be set aside as the legal reserve unless the legal reserve has reached the amount of the Company's paid-in capital. After an amount has been provided for the special reserve or the special reserve has been reversed in accordance with the Company's operational needs and laws and regulations, if there is still a balance, a distribution may be made. Where the earnings are paid out in cash, it shall be resolved by the Board of Directors and reported to the shareholders' meeting without submitting it to the shareholders' meeting for ratification in accordance with the provisions of Article 240, Paragraph 5 of the Company Act.

Cash dividend to be distributed shall not be less than 30% of the total dividends to be distributed. If the earnings per share falls below NT$0.1, the Board may retain the earnings and not be for distribution.

1.3.2.Dividend implementation status:

For the Company's 2025 earnings distribution, the board resolution on May 11, 2026 was as follows:

Ordinary stock dividends: A cash dividend of NT$1.32 per share and stock dividend of NTD 0. After the earnings distribution table is passed by the Annual Meeting of Shareholders, the ex-dividend record date is authorized to be set by the Chairman separately

1.4.Effects of the stock dividends proposed at the last shareholders' meeting on company performance and earnings per share:None.

1.5.Employee and director remuneration:

1.5.1.The amount or scope of remuneration for employees and directors as stated in the Company's Articles of Incorporation:

The Company shall appropriate at least 2% of its earnings, if applicable, as remunerations to the employees and no more than 5% as remunerations to the Directors. If the Company has carryforward loss, the Company shall appropriate for covering such loss first.

The recipients of the aforementioned remunerations in stock or cash shall include the employees of the subsidiaries of the Company meeting specific conditions.

1.5.2.The calculation basis for the estimated amount of remuneration for employees and directors in the current period, the calculation basis for the number of shares of employee remuneration distributed by stocks, and the accounting treatment if the actual distribution amount is different from the estimated amount:

In accordance with the Company's Articles of Incorporation and the profitability of the Company as verified by CPAs in 2025, it is proposed to appropriate NT$ 15,708,596 as employee remuneration and NT$ **0** as director remuneration; both will be distributed in cash. The aforementioned allocation ratio and amount have been approved by the Company's Remuneration Committee and the Board of Directors.

If there is a discrepancy between the actual distribution amount in the next year and the estimated amount, it shall be dealt with according to changes in accounting estimates, and the difference shall be recognized as the profit and loss of the following year.

1.5.3.Remuneration distribution approved by the Board of Directors:

(1) The amounts of employee remuneration and director remuneration paid in cash or stock. If there are discrepancies with the annual estimated amounts of recognized expenses, the number of discrepancies, reasons, and handling circumstances should be disclosed:

Year of remuneration: 2025
Board approval date: March 11, 2025 Units: shares; NT$

Employee remuneration				Director remuneration	Whether there is a difference with the estimated amount in the annual financial report of recognized expenses		
Cash amount	Stock amount	Number of shares	Total	Cash amount	Number of differences	Reason	Handling
15,708,596	0	0	15,708,596	0	No difference	Not applicable	Not applicable

Note: The above remuneration of the employees and directors does not differ from the remuneration amounts for employees and directors as recognized in the 2025 consolidated financial reports.

(2) The amount of stock dividends paid to employees as remuneration in proportion to the net after-tax income stated in the separate financial statements and to the total amount of remuneration to the employees: Not

applicable.

1.5.4. The actual distribution of employee, director, and supervisor compensation for the previous fiscal year (with an indication of the number of shares, monetary amount, and stock price, of the shares distributed), and, if there is any discrepancy between the actual distribution and the recognized employee, director, or supervisor compensation, additionally the discrepancy, cause, and how it is treated:

Year of remuneration: 2024
Board approval date: March 12, 2024 Units: shares; NT$

Employee remuneration				Director remuneration	Whether there is a difference with the estimated amount in the annual financial report of recognized expenses		
Cash amount	Stock amount	Number of shares	Total	Cash amount	Number of differences	Reason	Handling
17,792,120	0	0	17,792,120	0	No difference	Not applicable	Not applicable

Note: The amounts of the above board resolutions have been expensed in 2023, and there were no differences between the amounts of the expense accounts and the amounts proposed by the Board of Directors.

1.5.5. The Company's buybacks of its own shares: None.

2. Issuance of corporate bonds: None.

3. Issuance of preferred stock: None.

4. Issuance of overseas depository receipts: None.

5. Employee stock options: None.

6. Circumstances for restricting employee rights to new shares: None.

7. Mergers and acquisitions or the transfer of shares of other companies to issue new shares: None.

8. Plan for capital investment and utilization: None.

(10) Research and development of water products.
(11) Development of fruit tea products
(12) Development of beverage and edible oil products.
(13) Product development and distribution layout of Kaoliang liquor of Matsu Distillery products.

1.2.Industry Overview

1.2.1.Industry status and development:

Oil products: As soybean oil is the most commonly used vegetable oil in Taiwan, Taisun imports soybeans from overseas, processes and refines the oil in Taiwan. The products made by us are soy flour and soybean oil. Soy flour is one of the primary raw materials for complete feeds and soybean oil is used for cooking. Currently there are roughly two main uses for the most part. One is for restaurant and food factory business, such as soybean oil and palm oil in 18-liter drums; and the other is for households, shipped in small packages. In recent years, people's health awareness has risen and it is an industry trend to introduce diversified edible oils with healthy concepts.

Feed products: The prices of bulk grains continues to rise and feed costs have risen, but they cannot be passed on completely; and so the profits of the feed industry have fallen. Therefore, it has become a trend to extend and increase value across the entire food production chain.

Food products: As the health awareness has increased, Taiwanese people now attach more importance on the raw materials used in products. Products that boast natural, no additives or high dairy content, and value-added are better received by consumers. In recent years, food safety incidents have also raised consumers' health and safety awareness. They thus show a greater willingness to put more money into goods that are produced by major manufacturers, offer certificates of origin, feature production certifications, or other third party certifications. These in turn become selection indicators that put consumers more at ease.

Liquors: Kaoliang liquor is a well-known product among the Chinese in the world. Kaoliang liquor is a sorghum-based distilled alcohol that is mainly consumed in Mainland China and Taiwan. The three major state-owned distilleries in Taiwan are the main manufacturers, and most of the distributors are responsible for distribution and sales. Kinmen Kaoliang and Matsu Kaoliang adopt an exclusive distribution model, whereby distributors are responsible for channel development and sales, and are authorized to co-develop products with the distilleries based on market conditions. Yushan Kaoliang, on the other hand, is directly responsible for its own channel development and sales through Taiwan Tobacco and Liquor Corporation.

1.2.2.Relevance of the industry's upstream, midstream, and downstream:

Oil products:The main raw materials of soybean oil are soybeans, which are imported from the United States and Brazil. Once imported, oils and essential oils are extracted by investee companies. Other types of vegetable oils are imported from countries such as Australia, Spain, the United Kingdom Malaysia and Thailand. The main customers of the oil used in the bulk packaging business are food factories or chain food and beverage groups, or else it is sold to restaurants via distributors throughout the country. Household-use oil sold in smaller containers is sold by Pin-Tai Distribution Enterprise Co., Ltd. to mainly hypermarkets, supermarkets and supermarket chains.

Feed products: The main raw materials are wheat, soy meal, fish meal, and rice bran. Almost all wheat and soybeans are imported from Australia, United States, or South America. After mixing the main raw materials and other subsidiary raw materials into aquatic feed, the company sells it directly

Food products: Good products can only be made using good ingredients. The Company abides by the principle of source control, and the raw materials for current products mainly come from domestic sources while some are supplied from abroad. Several high-quality suppliers have had transactions with our Company for many years. Therefore, the quality and delivery times of their raw materials are stable. Sales are handled by subsidiary Pin-Tai Distribution Enterprise Co., Ltd.

Liquors:The main ingredient of Kaoliang liquor is great millet. Taiwan's production volume is low and most of the products are imported. Tobacco and alcohol specialty stores, hypermarkets, supermarkets, and producing areas of Kaoliang liquor are the main channels due to the duty-free policy.

1.2.3.Product development trends and competitive landscape:

Oil products:Following the impact of oil safety incidents, provide safe, pure and healthy oils and establishing consumer trust are important issues. At Taisun, we have been actively acquiring certifications such as SQF, Halal, and Tse-Yue Clean Label to provide consumers with the best quality and highest nutrition. High quality oil with high nutritional value has become a market trend. The rapid growth of high-end products such as olive oil and rapeseed oil has made the public aware of the increasing demand for the best quality and healthier products. We are committed to developing appropriate business strategies to satisfy the needs of consumers.

Feed products: Climate change and environmental protection issues have caused difficulties in feeding. Breeders mostly improve water quality and management to increase production efficiency. Only products and services that can substantially reduce costs and increase revenue for breeders can win the favor of customers. In the future, the food chain can be integrated to create a win-win situation. The integration of joint management and feeding will become the goal of joint efforts for feed manufacturers and farmers. Moreover, fishermen are

encouraged to reduce the cost of labor and plastic bags, upholding the concept of ESG environmental sustainability by switching from bagged feed to bulk feed. We successfully **reduced 7,356.6 kg of plastics in 2024**.

Food products: The domestic market is lively, new products are introduced, and major competing product manufacturers are investing in brand resources. As the production costs of raw materials increases year by year, beverage products are highly replaceable and have short life cycles. In the current situation where sales channels require continuous gross profit improvement, Taisun still insists on innovation, insight into consumer trends, and development of products that are natural and healthy and that keep up with and create new trends. In particular, as we abide by food safety regulations, we never slacken our efforts in ensuring product quality and monitoring the sources of raw materials and processes, and we continue to supply consumers with high-quality and trustworthy products.

Liquors: Among the three major state-owned distilleries, Kinmen Distillery accounts for nearly 80% of the market. Based on the alcohol concentration, HeySong Corporation and Vedan Enterprise Corporation are entrusted to distribute them. In recent years, various factories have taken advantage of the long-lived nature of liquors to launch “limited” and “collectible” new products, and have further shined in various international spirits competitions. In recent years, the focus of customer base for Kaoliang liquor has been gradually shifted towards the middle-aged and old-aged, approaching the new beverage trend of the new generation. Taishan became the distributor of Kaoliang liquor products of Matsu Distillery to explore new business opportunities and increase growth through the Company's business advantages. In addition, HeySong Corporation has recently launched a Kaoliang cask-finished series and invited a well-known Korean artist as its brand ambassador, gradually positioning Kaoliang, traditionally consumed by middle-aged and older consumers, toward former whisky drinkers and younger consumers who previously did not consume Kaoliang. Taishan has undertaken the exclusive distribution of Matsu Kaoliang, leveraging its channel management advantages to expand Matsu Kaoliang into convenience stores and PX Mart pre-order channels. In addition, the jointly developed "Ma Tsu Old Kaoliang Liquor" and "Refined Kaoliang Liquor" product series have gradually gained market visibility.

1.3.Technology and R&D Overview

1.3.1.Technical level of the business

The Company’s management systems and products have been verified through programs such as the National Quality Award (NQA), Taiwan Quality Food Association (TQF), the Hazard Analysis Critical Control Point (HACCP) designation, and the Foundation for Food Safety Certification (FSSC 22000). Its health food brands of oil products and hot-filled bottle low-acid tea beverages have obtained US FDA approval for export; it has obtained the certification of the food industry's hygiene management food safety systems, environmental protection packaging water carbon footprint verification, Halal certification, and Tse-Yue Clean Label, and so on.

In order to comply with international trends and customer requirements, the entire production lines of the food factory and food factory III and the oil factory have obtained the SQF9.0 certification to strengthen source management. Furthermore, its products have more stringent food safety quality standards and have been certified by GFSI, Aligning with international standards and driving the business to produce and sell products globally. We continue to strive for verification and award certificates of related management systems, and with such rigorous management systems and verifications serving as the company’s product quality assurance, we will increase the Company's product power to win the trust of society and of customers.

In a bid to enhance the lab’s testing professional capability, meet the requirements of quality consistency and improve the Company’s corporate image, we have introduced the ISO/IEC 17025 Testing Laboratory and was certified by TAF on June 15, 2021.

1.3.2.Verification of the construction of the pig production traceability system:

(1) The Beidou Livestock Farm obtained National Animal Husbandry Foundation production background verification in September 2009 and is subject to verification each year. The production process of pig raising, vaccination, and feeding is made open and transparent to offer consumers our quality assurance. 2024/06/20 Validation is again passed by the National Animal Industry Foundation.

(2) Regarding Taisun brand pork verification, it passed Carrefour CQL international quality certification in 2014. Together with Shang Lee slaughtering and cutting technology, Carrefour's management in France verifies its validity every two years. Taisun’s pork acquired Carrefou CQL certification on October 23 and has already been sold in the Carrefour Free Brand Market.

(3) 2025/11/24 Beidou Farm received the Excellent Meat Award by Changhua Meat Market. The farm has won the award for five consecutive years.

1.3.3.Research and development

(1) The Company continues to invest in capital and human resources, and the team develops new, innovative and differentiated market leading products with a goal-oriented market demand.

(2) We refine the processing technology to improve the quality of products and provide consumers with stable and outstanding products.

(3) We keep track of the quality, safety, and price of raw materials for ingredients, while planning and launching new products that meet the hygiene, health and safety requirements in order to capture the best profit opportunities and contribute to the Company's economic value.

1.3.4. Technologies or products successfully developed in the most recent year

Year	R&D results
2024	(1) Refrigerated beverage: Sunkist 11% Apple Juice, Taisun and Coco - Passionfruit Party (2) Ambient beverage: 11% Apple Juice (formula and pilot production completed), Cheers Honey Lemon Infused Water, EX Sparkling Water (small package) (pilot production completed) Cheers Lemon Sparkling Water (enhanced formula), Lemon White Gourd (colloidal enhanced & OEM transfer) (3) ambient dessert: Mung Bean Soup (can330), Adlay Soup (can330), Red Bean Soup (can330), Low Sugar Mixed Congee (Costco)
2025	(1) Chilled Beverages: Lychee Tea with Apple Filled Jelly, Japanese Sencha Fruit Tea, Double Pomelo Peach Black Oolong, Grass Jelly Q-Balls with Black Tea (2) Room Temperature Beverages: Woo Tang Caffeine-Free Mesona Tea, Taisun Sparkling Lemon Black Tea, Taisun Sparkling Fruit Tea, Taisun Sparkling Grape Green Tea, Cheers - Peach Sparkling Water (3) Room Temperature Snacks: Additive-Free Peanut Soup (can 330ml) (4) Edible Oils: Taisun Japanese Rice Bran Oil, Taisun Light and Refreshing Blending Oil (5) Customized Oils: Two Peck Dedicated Frying Oil, Longyan Fried Chicken Professional Deep-Frying Oil, Military-Use Soybean Salad Oil for the Armed Forces

1.3.5. Research and development expenses invested in the most recent year and as of the publication date of the annual report

Unit: NT$ thousand

Year	2025	2026 up to March 31
Total cost	34,182	5,372

1.4. Long-term and short-term business development plans

1.4.1. Long-term business development plan

Oil products: We strive to become the first in the industry to import the international food safety and quality management system SQF (SafeQualityFood), continue to research and develop differentiated good oils, and improve the oil product line to become a comprehensive and safe edible oil supplier. We upheld corporate social responsibility and our oil product specialization. Through innovative marketing methods, we are committed to promoting healthy oil knowledge, establishing a secure professional image in our oil products, and enhancing consumer preference and trust in the brand. We aspire to allow Taisun's edible oil enter every household in Taiwan and become a model of oil safety, and then to become the first choice of consumers, restaurants and food factories when buying edible oil.

Feed products:On June 16, 2020, Taiwan was removed from the list of food-and-mouth epidemic country, and in response to the import of U.S. pork in 2021, the Breeding Division of Taisun teamed up with Shang Lee Foods. On October 22, 2020, Carrefour announced the introduction of the “block-chain technology” for its strictly selected pork sold in its stores. With its independence, traceability and transparency, coupled with the optimization of pasture, farming management, meat processing and storefront sales, a more comprehensive traceability is created. Since October 2020, Carrefour CQL pork farming management includes food inspection, water quality inspection, vaccine and medication tracking. Feeds for each stage is ensured that it meets the needs of different pig ages, and hormones or growth hormones are strictly banned. The source and composition for feeds or medicine used in the feeding process are known and traceable. Through scanning the QR code, consumers are enabled to learn about the information in relation to pork from the farm to the processing and slaughtering, allowing peach of mind when consuming meat.

Food products:The Company’s food products are mainly for the domestic market, and are actively customer-oriented towards natural health and development of high value-added products without additives or changes in innovative materials. We seek to expand brand market share, improving the Company's overall operating income and taking into account the optimal gross profit contribution. The business side is more actively deploying and integrating investment resources, improving the cost-effectiveness of the channel and further consolidating profits. To respond to international environmental protection trends and the issue of plastic reduction to protect marine life, we have built a new generation of iron and aluminum can production line to deepen the Company’s manufacturing strengths to make canned drinks.

Liquors: Gradually expand the distribution of other categories of alcohol products, such as whiskey and wine. Use the experience in liquor management and distribution channels to serve other brands to

enrich the product line of Taisun's liquor distribution.

1.4.2. Short-term business development plan

Oil & fats products: In response to the high demand of consumers for health, the Company continues to expand the sales of Taisun Canola Oil, healthy and certified sunflower oil, Taisun Rice Bran Oil and olive oil; and continues to establish a professional brand image of selection for chefs, maintaining the Company's leading position in the edible oil market.

Food products: Cheers, Cheers sparkling water, and Taisun pure water are the main brands of packaged water. Strengthen brand advantage communication and expand channel development to enhance Taisun's influence in the beverage market. Key products such as Taisun Eight Treasure Congee, Taisun Honey Herbal Jelly, and the Bing Jeon series will continue to drive brand rejuvenation. The product portfolio is also being expanded to include low-sugar Eight Treasure Congee and the Nature Series, such as mung bean soup, red bean soup, peanut soup, and barley soup, to meet consumers' demand for natural and healthy options. The newly developed Grass Jelly Q-Balls, featuring innovative technology, offer richer flavors and a chewier texture. Taishan continues to maintain its leading position in the ready-to-eat dessert market while sustaining growth.

Liquor products: We will strengthen the deployment of the distribution channels for Kaoliang liquor of Matsu Distillery, and expand to modern distributors that are more comprehensive of Kaoliang liquor. Moreover, we strive to gradually increase the popularity of Kaoliang liquor of Matsu Distillery through brand communication and new product launch.

2. Market, production, and sales overview

2.1. Market analysis

2.1.1. Main goods (services) sold (provided) by region

Region / Product name	North	Central	South	East	Exported	Outer Islands
Cooking oil	49%	42%	9%	(Included in South)	—	
Soy flour	1%	98%	1%	—	—	
Feed products	9%	26%	65%	—	—	
Food and beverages	50%	22%	5%	(Included in South)	23%	
Liquors	18%	29%	6%	(Included in South)	—	47%

2.1.2. Market share

(1) Household oil products, 19%

(2) Food products (snacks), 49%

(3) Taisun water products, 8.2%

2.1.3. Future supply and demand conditions and market growth

(1) In respect to oil products, Taisun obtained international SQF certification in 2014, providing consumers with a safe choice to connect with international standards. We also became the first company to obtain Halal certification in 2017 for our household oils, demonstrating values of mutual respect in a multicultural society. Many of the oil products have been certified for Tse-Yue Clean Label, giving consumers the most pure and natural good oil Taisun has been making a variety of oils for over 76 years and thanks to its expertise, Taisun has the most comprehensive production lines in the industry. At Taisun, we strive for food safety and are dedicated to promoting healthy oil knowledge, thus building ourselves a professional imagine also known as "Taisun - the all-around oil specialist", insisting on providing consumers with alternatives that they can rely on.

(2) The overall domestic food and beverage industry market is active as major competing brands also continue to develop new products and invest in their brands.
In terms of strengthening the market share of our existing brands, we aim to make our brands more efficient through advertising investment. We will concentrate on the management of existing brands such as Taisun Bing Jeon, Pure Water, Cheers, Mixed Congee, Grass Jelly, and Sunkist. In 2023, our Bing Jeon brand launched Bugcat Capoo limited edition packaging and promotional activities were launched to arouse consumers' collection frenzy and achieved the first place in terms of market share. The "Affordable Lifestyle" positioning targets different consumer segments, achieving the top market share in the sparkling water category. Since 2019, Taisun Pure Water has promoted the "Taisun Supports Taishan" public welfare initiative, sponsoring elementary schools, junior high schools, and senior high schools in Taishan District, New Taipei City by providing supplies for sports teams and producing sports towels and jerseys, contributing to the cultivation of emerging athletic talent in Taiwan. Taisun Big Straw range is

a refrigerated fresh beverage with jelly, which is unique. We will continue to observe the market trend and introduce new flavors. Taisun Grass Jelly Drink has launched new chewy Grass Jelly Q-Balls, offering a richer texture. Starting from 2024, Taisun Snacks has launched low-sugar Eight Treasure Congee and products featuring 100% no added food additives, including mung bean soup, barley soup, red bean soup, and peanut soup, made from single whole ingredients with a taste comparable to home-cooked food.

(3) Matsu Distillery will complete its new plant (Nangan Plant No. 2) in 2026, which will increase its production capacity by 10 times. There are two major challenges for the Taiwanese liquor market. One is aging consumers, and it is necessary to develop new consumer age groups. In addition, there is also fierce competition from foreign alcohol products and Kaoliang liquor makers need to be increasingly innovative so that young people will be willing to try spirits.

2.1.4. The Company's competitive niche

(1) Excellent management team and a corporate culture of honesty and integrity
The company’s management team upholds a corporate culture of honesty and integrity. In addition to superb performance in business management, social responsibility and research and development capabilities, it can actively collect information, analyze consumer preferences, fully grasp consumer trends, and quickly enter niche markets. Although our Company falls within a traditional industry, in recent years it has actively recruited outstanding talent in the market. It continues to carry out organizational reform and corporate culture reengineering, with focus, chain repair, and results as the themes of reforms, periodically stimulating our continuous learning and growth.

(2) Excellent partners
The Company has excellent partners in manufacturing, marketing, research and technology development. Through the horizontal and vertical integration of resources, the most effective economic investments are used to create the highest value.

(3) Consumer-oriented product development
The Company is consumer-oriented and provides safe and excellent food and oil products that meet consumer needs. We constantly observe the pulse of society, collect market-related information to analyze and judge consumer preference trends, and actively develop products that cater to consumers' potential demand. We do so in order to enhance consumers' trust in the company, and to deepen brand loyalty and popularity, and strive for innovation and sustainable operations.

(4) Sound and complete marketing channels
The company has a sound and well-populated sales channel network, including modern and traditional channels such as CVS, mass merchandising, supermarket stores, and distribution, with products all over the country. In addition, the catering industry and e-commerce platform channels are actively developed, the sales network is more comprehensive, and the channels are effectively integrated to improve operating efficiency and efficiency.

(5) Perfect quality management and system verification
The Company’s management systems and products have been verified through programs such as the National Quality Award (NQA), Taiwan Quality Food Association (TQF), the Hazard Analysis Critical Control Point (HACCP) designation, and the Foundation for Food Safety Certification (FSSC 22000). Its health food brands of oil products and hot-filled bottle low-acid tea beverages have obtained US FDA approval for export; it has obtained the certification of the food industry's hygiene management food safety systems, environmental protection packaging water carbon footprint verification, Halal certification, and Tse-Yue Clean Label, and so on.
In order to comply with international trends and customer requirements, we are striving for laboratory certification preparation and verification of related management systems. The entire production line of the food factory and food factory III and the oil factory has obtained SQF9.0 certification, strengthened source management and rigorous food safety quality standards, and has been certified by GFSI, which is in line with international standards and drives the company's product sales worldwide.

2.1.5.Development outlook advantages, disadvantages, and measures taken in response:

Industry	Favorable factors	Unfavorable factors	Measures to be made in response
Oils	A. Our oil plant has obtained the highest third-tier level of international SQF certification in addition to earning Halal certification, and Tse-Yue Clean Label. Food safety and quality lead the industry in line with international standards. B. The rising awareness of health and safety has made consumers more cautious about the price of the oil products they purchase, and more cautious about choosing well-known and high-quality products. C. The habits of using edible oil has changed with the increase in household structure and consumers' health awareness, and the market has become dominated by healthy, small package, and high quality products.	A. The main raw materials are imported from abroad, and the price of raw materials is easily affected by fluctuations in the international market and the cost is high. B. The soybean processing industry is more easily affected by overall domestic supply and demand. C. The household oil market has matured. After the pandemic, the overall sales of edible oils declined. D.	A. Establish a professional procurement team, grasp the dynamics of international market information, and respond to the risk of price fluctuations. B. Grasp product import and export opportunities in response to changes in overall domestic supply and demand and international market conditions. C. Continue to research product innovation, bring health concepts into new products, enhance brand value, and strengthen marketing. D. Establish an image of peace of mind and trust with international food safety and quality certification.
Food and beverages	A. With more than 10 major brands, the quality is trusted by consumers, including Taisun Mixed Congee, Taisun Grass Jelly, Taisun Pure Water, Taisun Bing Jeon, Taisun Twist Water, Cheers, Cha Chi Chu, Mellow Tea, Big Straw, Sunkist. B. Possessing professional and exclusive technology and equipment in the field of highly technically proficient canned sweets and granular beverages. C. Proactively develop new products, new brands and replicate successful experiences in order to create food and beverage experiences that exceed consumer expectations. D. Adopt a centralized and more effective marketing communication method. E. Enter the production technology of aluminum cans.	A. The scale of modern channels is expanding day by day, and the requirements for channel costs are constantly increasing. B. Food and beverage entry barriers are low and competition is fierce. C. Brand investment costs are high. D. The cost of packaging materials and raw materials is rising.	A. Integrate channels and brand investment resources and supporting facilities to improve cost-effectiveness and achieve profit targets. B. Persist in the development of new products that are natural and healthy with few additives, and ensure a safe and reliable source of raw materials. Enhance the sense of product value, and create differentiation. C. Closely monitor the cost trend of raw materials and respond as soon as possible to reduce adverse effects.
Liquors	A. Taisun has extensive experience in marketing and distribution, which helps increase the reputation and visibility of Matsu Distillery. B. Matsu Distillery has several types of Kaoliang liquor that have won international awards. Among them, “Tong Yung X’Old Kao Liang Liquor” won the Platinum Award in the liquor category for the first time in Taiwan's history at the San Francisco World Spirits Competition, USA at the end of 2022, which is the highest honor in the history of Taiwanese spirits. C. Nangan Plant No. 2 will be completed in 2026, and the production capacity will be greatly increased.	A. Liquors of Matsu Distillery are produced in Matsu, and due to flight restrictions (weather), the supply is unstable. B. The price range of existing products of Matsu Distillery is relatively low. For the higher unit price of project products, the image of the brand needs to be strengthened. C. Due to its non-expiry characteristic, spirits are often stored, resulting in high inventory levels and impacting cash flow.	A. In the future, the Nangan Plant No. 2 will be completed, and the capacity deployment and transportation plan will be more flexible. B. Strengthen the concept of brand building and unique benefits of project products. C. Carefully select purchase items to prevent a large number of low-rotation products from occupying the inventory level.

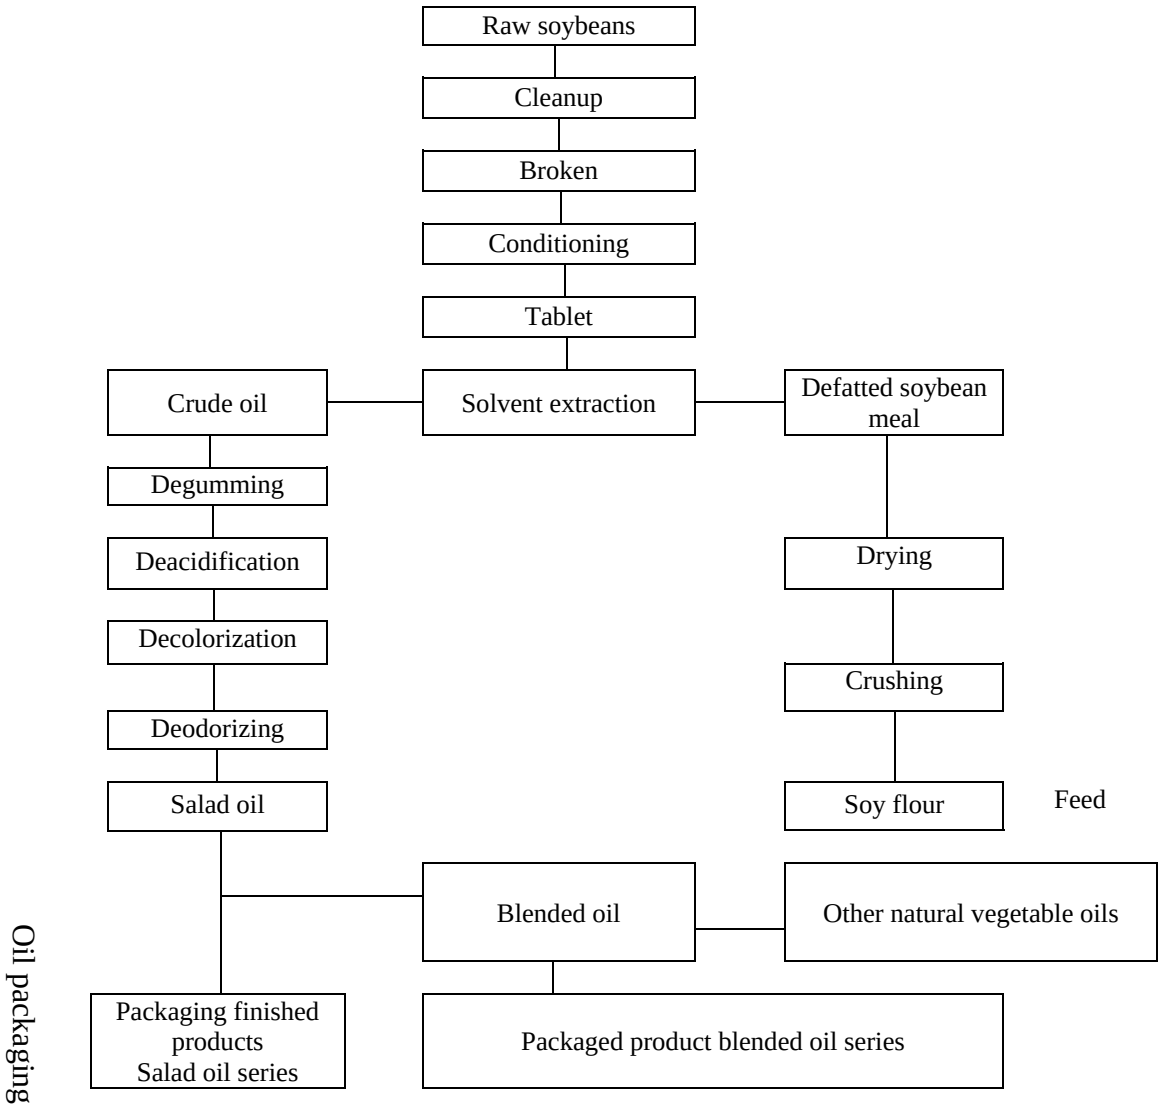

2.2.The purposes and production processes of our main products:

2.2.1. Purpose of main products

Oil products - Soybean flour (for feed ingredients), salad oil (for household and restaurant cooking).
Food and beverages - Snacks that can be eaten when opened, and thirst quenching solutions in an open bottle.

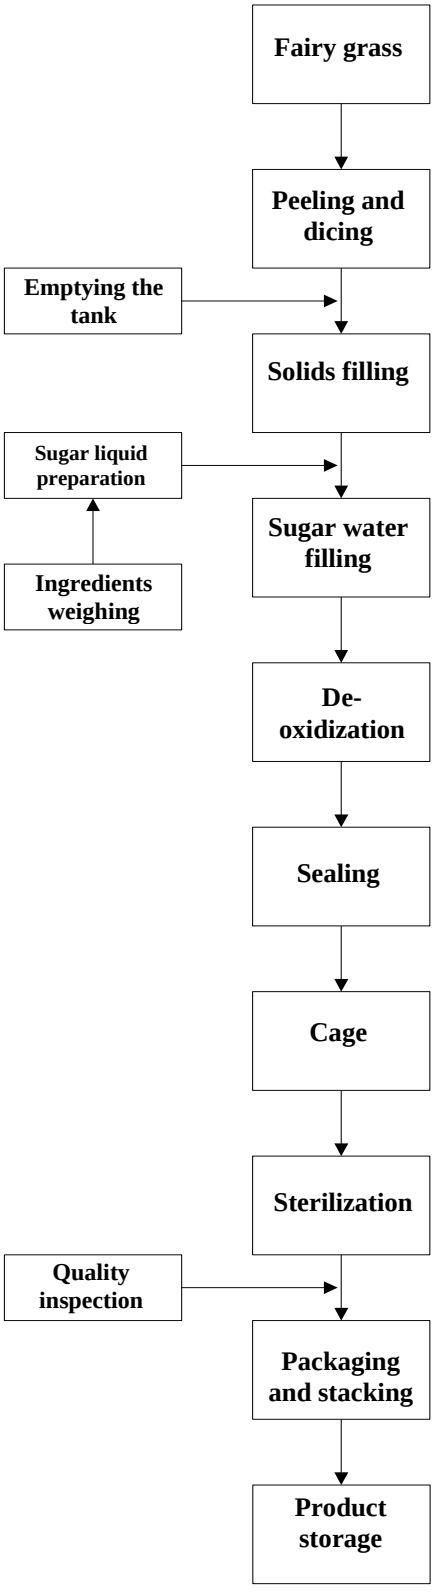

2.2.2. Production processes of main products

(1) Production process of the oil factory

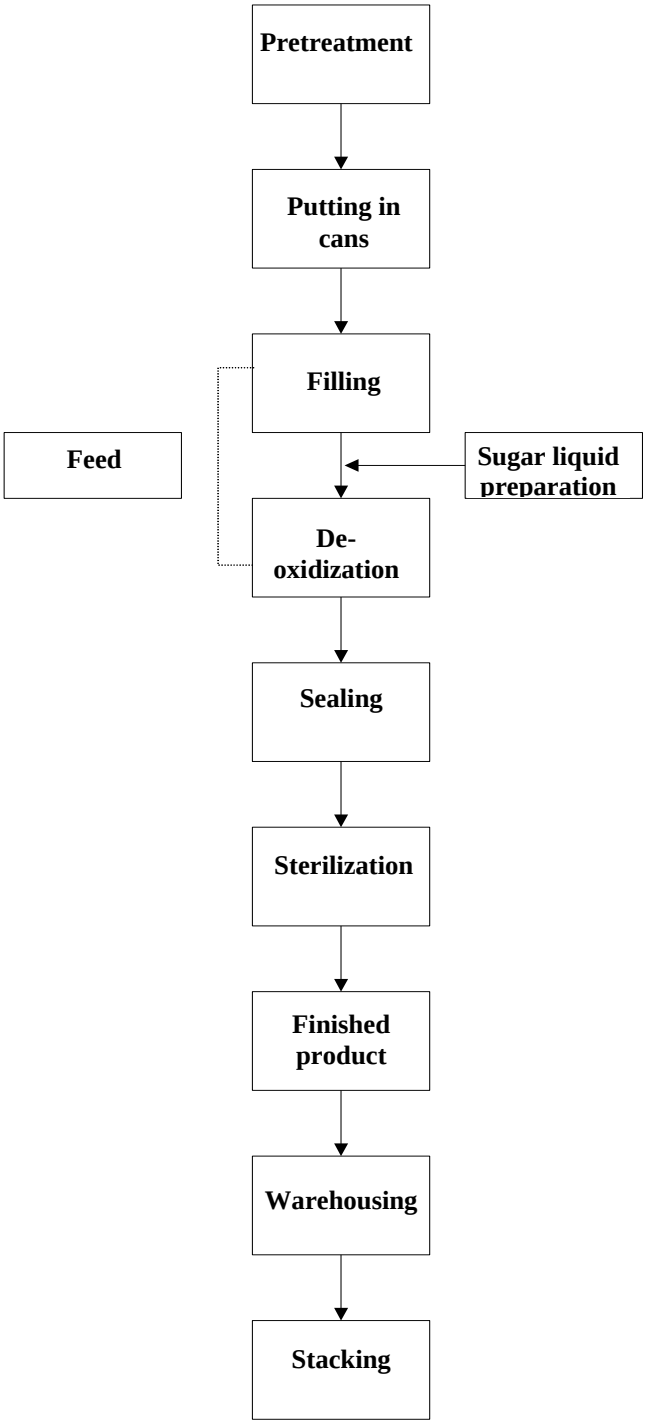

(2) Production process of main products of food factory

A. Grass Jelly

B. Mixed Congee

2.3.Supply status of main raw materials

The main raw materials of the Company's food and beverage products include peanuts, red beans, dried longan, dried grass, sugar, mung beans, etc. The supply sources are mainly domestic and some are imported. The raw materials for oil products are bulk materials, mainly soybeans. The supply of soybeans is from the U.S. and Brazil and imported or jointly purchased. The raw materials for feed products are wheat and soy flour; wheat is supplied from the U.S, while soy flour is supplied from Taiwan. Since the Company's bulk material and raw material suppliers are mainly international large grain groups or well-known trading companies, these companies not only generally value their original reputations, but also have numerous locations around the world, so they can offer in-depth understanding of the quality of raw materials. Furthermore, they can consistently provide raw materials that meet specifications.

2.4.The names of customers who accounted for more than 10% of the total purchases (sales) in any of the year in the most recent two years, their purchases (sales) amount and proportion, and the reasons for the increase or decrease

2.4.1.Information on major suppliers

	2024				2025			
Item	Name	Amount	Percentage of total annual net purchases (%)	Relationship with the issuer	Name	Amount	Percentage of total annual net purchases (%)	Relationship with the issuer
1	100188	1,649,793	16.06	Non-related person	100188	1,098,625	10.42	Non-related person
2	100189	956,141	9.30	Non-related person	101963	734,093	6.96	Non-related person
3	500774	464,880	4.52	Non-related person	100189	560,343	5.31	Non-related person
4	Other	7,205,122	70.12		Other	8,151,695	77.31	
	Net purchase	10,275,936	100.00		Net purchase	10,544,756	100.00	

Note 1: Due to considerations of trade secrets, code names are used instead.
Note 2: Explanation of reasons for increases or decreases: Reasons for the increase or decrease of major purchasing customers from last year: The main suppliers all purchase soybeans, and the main system is through bidding. The main factors of change are due to the abundant supply of US West Coast goods and their relatively low quotations.

2.4.2.Major sales customer data

	2024				2025			
Item	Name	Amount	Percentage of total annual net sales (%)	Relationship with the issuer	Name	Amount	Percentage of total annual net sales (%)	Relationship with the issuer
1	C0002	2,379,705	22.28	Related person	C0002	2,202,258	21.77	Related person
2	C1000-H002	863,173	8.08	Non-related person	C1000-H002	831,845	8.22	Non-related person
3	100000145	455,512	4.26	Non-related person	100000145	441,720	4.37	Non-related person
4	Other	6,984,055	65.38		Other	6,638,816	65.64	
	Net sales	10,682,445	100.00		Net sales	10,114,639	100.00	

Note 1: Due to considerations of trade secrets, code names are used instead.

3.Employee data

Year		2024	2025	Current year up to March 31, 2026
Number of employees	Employee	528	483	483
	Technical staff	155	162	153
	Managers	200	177	173
	Total	883	822	809
Average age		42.89	43.25	43.35
Average years of service		7.87	7.65	7.78
Education distribution ratio	PhD	0%	0%	0%
	Master Degree	8.72%	7.79%	7.66%
	University	46.32%	46.71%	45.49%
	Senior High School	34.99%	35.77%	36.71%
	Below high school	9.97%	9.73%	10.14%

Note: Excluding contract personnel

4.Environmental protection expenditure data

4.1.The total amount of losses and sanctions incurred due to environmental pollution in the most recent year and as of the publication date of the annual report

Year / Item	2025	Current year up to March 31, 2025
Type of condition	Waste management, water pollution control and air pollution control	None
Sanctioning unit	Changhua County Government	None
Penalty amount	$382,000	$0

4.2. Future countermeasures: The Company's promotion and management of environmental pollution improvements:

In 2025, the company was fined RMB 6,000 for violating the Waste Disposal Law, RMB 6,000 for violating the Water Pollution Prevention and Control Law, and RMB 370,000 for violating the Air Pollution Prevention and Control Law, all of which were paid before December 2025. The company takes these matters very seriously and has taken the following corrective measures to prevent similar situations from recurring:

4.2.1. The company has internally promoted compliance with the Waste Disposal Act, requiring all process unit changes to be reported to the relevant authorities for legal and compliant reporting. The livestock farm has implemented process wastewater treatment and discharge quality control in accordance with the Water Pollution Prevention and Control Act, ensuring compliance with regulations. For steam production facilities, the company has implemented complete process operation records and exhaust gas emission control in accordance with the Air Pollution Prevention and Control Act, ensuring compliance with regulations.

4.2.2. We are also preparing for the certification of the ISO14001 environmental protection management system. We have already introduced a legal cloud legal audit system to check the environmental protection-related laws and regulations, and find the advanced solutions based on the environmental aspects.

4.2.3. The Company places high emphasis on this incident and has taken the following improvement measures to prevent the recurrence of similar situations.

1. Operation of environmental pollution improvements:

(1) At our food factory, palm kernel shells have been used since 2014. We have also switched to wood pellet biomass fuels made from pruned roadside branches or recycled agricultural and forestry waste including driftwood in 2018. As a means to meet higher standards of air pollution emissions, we also began to use fuel made from pelletized log

shaving to reduce the generation of slag and dioxins in 2020. By making efforts to recycle and reuse, we at the same time reduce CO_2 emissions which is beneficial to the environment. With the use of pure wood pellets for raw materials in 2020, we further improved the combustion rate. The slag output was significantly reduced by 65.57 tons, or 48%.

(2) In order to cooperate with the government to reduce the pollution from factory boiler flues, the aquatic feed factory installed a boiler scrubber in October 2017 to allow the emitted suspended particulates and sulfur oxides to comply with regulations. In addition, the boiler of the second plant of Taizhong Foods was also changed to use natural gas as fuel in September 2019, and the aquatic product plant also replaced the boiler fuel in November 2019. Regular inspections were carried out in and the results met the new regulatory emission standards; the combustion efficiency was also increased from 83% to 91.7%. Furthermore, through the manufacturer's assistance in monthly testing of combustion efficiency and emission gas monitoring, this will greatly reduce the pollution caused by boiler combustion emissions. In line with the EPA's stationary source emission standard amended on July 1, 2020, our food factory also began to use the light cracking oil since March 2020. Although such method is only for short-term, it required no equipment replacement to meet the air pollution standard.

(3) There are 1 qualified personnel in the production factory who have obtained the wastewater treatment certificate; 1 have obtained the air pollution prevention certificate; and 1 have obtained the waste disposal certificate, as the management of environmental protection operations in the plant.

2. Future improvements and practices:

(1) Promote energy-saving policies, implement various cost-saving projects, and take volume reduction and waste reduction as the phased goal, combined with the implementation of the 5S movement, to maintain the effective results of waste reduction and volume reduction.

(2) Promote the implementation of boiler efficiency improvement projects, with the main objective of improving efficiency and heat source recovery.

(3) Integrate the cooling water system of the factory area and evaluate and plan the facilities for recycling and reuse.

(4) Continue to promote the weight reduction plan of product packaging materials and evaluate the feasibility of using environmentally friendly packaging materials.

3. Estimated environmental protection expenditures in the next two years:

Item \ Year	2025	2026
Equipment and operating costs	NTD 19.53 million	*NTD 26.83 million
Packaging material environmental protection fees	NTD 45.74 million	NTD 51.00 million

※1. Approximately NTD 3 million for the regular inspection of boilers and the maintenance of air pollution prevention equipment.
※2. Approximately NTD 23.83 million for the sewage treatment facilities and the surrounding facilities.

4. Impact after improvement:

(1) The quality of effluents discharged is in compliance with the standard of environmental protection laws and regulations, achieving the goal of zero public health and pollution.

(2) Reduce the amount of waste water produced and reduce the amount of discharge to save treatment costs.

(3) Reduce the use of product packaging materials, in line with the concept of environmental protection and energy saving.

(4) Boiler chimney emissions to comply with laws and regulations, effectively reducing air pollutants.

(5) To fulfill social responsibilities, enhance customers' trust in environmental protection and product quality, and further gain public recognition of the Company so as to increase product competitiveness and market share.

5. Labor relations

5.1. The Company's various employee welfare measures, further education, training, retirement systems and their implementation, as well as the agreement between labor and management, and various employee rights protection measures

5.1.1. Employee benefits

(1) In order to provide diversified benefits, we have established the "Employee Welfare Committee of Taisun Enterprise Co., Ltd." and the "Employee Welfare Committee of Pin-Tai Distribution Enterprise Co., Ltd." in accordance with the law. They are responsible for planning and implementing various welfare programs. In addition to the benefits that are provided in accordance with the law, we strive to create a happy workplace. We also provide benefits that are better than statutory ones to enhance the interaction among colleagues and team

cohesion. The Company allocates 0.05% of its total revenue as a welfare fund every month to support multiple welfare measures. At the same time, the Employee Welfare Committee meetings are held on a regular basis. In 2024, the Company provided subsidies for recreational entertainment, welfare assistance, and education, totaling NTD 7,154,149.

(2) The Company complies with the statutory leave system and attaches great importance to the management of employees' working hours. The Company provides a number of welfare measures such as lunch subsidies, employee accommodation, flexible working hours, etc., and assigns visually impaired masseuses to enter the Company to provide services to colleagues. We also provide an EAP employee assistance program to take care of employees' physical and mental health. We also provide maternity leave, paternity exams, and paternity leave in accordance with the law to ensure that employees have sufficient rest and support at this critical stage. We have formulated the “Pension Supervisory Committee Charter” and “Retirement Management Regulations”. At the same time, we implement the re-appointment system for retired employees to provide opportunities for employees to continue to participate in the Company's affairs and maintain their vitality.

5.1.2. Talent cultivation and inheritance

Talent is the key factor for the Company to stay a leader in the competitive market. We have a proactive cultivation and inheritance mechanism to enhance the work function and efficiency of our employees internally. By doing this, we elevate our brand image externally, attract excellent talented people, and strengthen the trust and loyalty of our customers. This ensures the sustainable and steady development of the Company’s business.

We design different training courses each year in line with the Company's strategies and departmental needs, provide comprehensive and diversified learning contents and methods. Our training courses cover strategic development, management functions, professional functions, general functions, and orientation training. In order to improve the flexibility and convenience of learning, we continue to promote the voluntary learning and reading habit of colleagues, and provide them with the latest trends and international perspectives. We also make an effort for management to align their functions with first-class management concepts, which in turn will become the driving force for the Company's progress. Furthermore, we continue to promote online learning, so that employees are not constrained by time and space, and can maintain the habit of learning anywhere, anytime, improving the high efficiency of learning. In 2024, a total of 21,768 people completed the training courses, totaling 21,152.53 training hours.

(1) The “Core Power Camp” was held in order to enhance the personal qualities and positive working attitudes of young cadres, forming a positive force for change, and further reserving the talent.

(2) The “MTP Management Training Course for Basic Managers” course was held in order to cultive and develop the management ability of basic level managers, improve the problem analysis and solution ability, effectively cultivate the leaders and subordinates, promote the execution of team operation and execution, and improve the performance of the team.

(3) The “Electronic Document Collection and Delivery System” course was held aiming to keep track of the progress of document collection and delivery through electronic means, online retrieval, reply processing progress control, while improving the timeliness of document delivery and reducing paper consumption, to gradually achieve the goal of paperless.

(4) The “Forward-looking Strategic Planning and Annual Plan Series” course was held in order to cultivate the strategic thinking and strategic planning ability of management to develop department strategies, new markets and new business development, and to analyze the strengths, weaknesses, opportunities and threats of each business unit. This helps each business unit establish the market position and profit model of, to launch the strategies, while also linking the goals of the business department to the goals of the Company.

(5) The “OKR Target Management” course was held in order to help employees understand the basic concepts and implementation approaches of the management of the OKR goals, and to clearly define specific, structured and measurable goals. This improves the team's ability to cooperate and work efficiency, achieving the Company's overall strategic goals.

(6) We implement education promotion on the “Ethical Corporate Management Best Practice Principles and Operating Procedures and Guidelines for Conduct”, “Operating Procedure for Prevention of Insider Trading”, “Declaration of Human Rights”, “Sexual Harassment Complaint and Handling Procedure”, and “Prevention Program for Unlawful Violence in the Performance of Duty”. This is to prevent employees from breaching relevant laws and regulations accidentally or intentionally, resulting in litigation or damage to their reputation.

(7) The “Prevention of Sexual Harassment in the Workplace” and “Human Rights Education” seminars were held in order to raise the legal awareness of managers and colleagues on sexual harassment and human rights issues. This will achieve the Company's sustainability concepts while meeting the requirements of the amended Act of Gender Equality in Employment.

(8) The “Marketing and Business Function Training” course was held focusing on strategic analysis, business performance strategy review, improvement strategies and channel planning. This helps improve the marketing and business team's vision and organizational strength.

(9) The “Food Safety Training” course was held to reinforce the product safety and control performance of the marketing, product research, production and other related units, and strengthen the management ability of related units on product packaging legality and food hygiene and safety.

(10) The “Analysis of True Causes and Solution of Problems” course was held to elevate the ability of production units to find true causes and solve and analyze problems.

(11) In order to continue to promote the reading habit and independent learning, the Company continues to provide digital learning resources (Harvard Business Review, CWLC) that are in line with the latest trends and international views. This helps managers and employees connect with the world-class management concepts, and non-management personnel develop their independent learning habit.

5.1.3. Retirement system and implementation

Our retirement application and grant standards are handled in accordance with the “Labor Standards Act” and “Labor Pension Act”. Prior to retirement, we organize a farewell party for the employee who is due to retire and such employee will be awarded a “Taisun Achievement” medal as a token of our gratitude and blessings. Employees who opt for the new pension system - their years of service will be retained and their pension paid upon retirement in accordance with the Workers' Retirement Reserve Funds. The years of service for those who opt for the new system will be subject to the requirements of the “Labor Pension Act”, meaning 6% of their monthly pension contributions is paid to their personal labor pension account set up by the Bureau of Labor Insurance. Since 2020, wage contributions have been adjusted every three months, better than twice a year prescribed by the law. In doing this, we ensure that the employees’ retirement contributions are more consistent with their wages. Contributions for employees who opt for the old pension system are allocated in accordance with Article 56 of the “Labor Pension Act”. At present, the account balance exceeds the demand by a large amount. In order to protect the rights and interests of employees in the future retirement, the Company continues to contribute 2% of the total salary of employees with old system pension to the pension fund account at the Bank of Taiwan on a monthly basis. As the account has excess reserves, based on the idea of the revitalization of retirement management, and take into account operational needs, manpower needs and legacy, we consult employees who have served the Company for over 30 years for their willingness to be rehired after their seniority is settled by retiring. By taking this approach, employees are able to use their pension in advance and continue to work for the Company and be eligible for contributions under the new labor pension system.

5.1.4. Interaction between labor and management and various employee rights protection measures

The Company supports and implements relevant international norms and standards, as well as relevant laws and regulations on labor and gender equality in the places where it operates. Our management policies for promoting human

rights and protecting labor rights are as follows:

(1) Protecting the rights and interests of employees: Regarding employees as the most important partners, all employees formally sign the "Employee Service Contract". In addition, employees are notified in advance prior to major operational changes that seriously affect the rights of employees, in compliance with government labor laws.
(2) Freedom of employment: forced labor and child labor are prohibited, and employees have the right to resign freely with reasonable notice.
(3) Eliminate unlawful discrimination to ensure equal employment: recruit suitable talent based on the principles of fairness, justice, and openness. The recruitment policy is based on equality of human rights. All candidates have equal opportunities and are based on the ability of candidates. There is no discrimination based on race, color, gender, religion, politics, nationality or social origin, or physical or mental disability.
(4) Respect for privacy: protect the legality of the collection and use of personal data, and use written documents to enable employees to understand, allow and agree to the purpose and category of the collection and processing of personal data, as well as the period, region, object and method of the Company's use of personal data, and the rights it can exercise.
(5) Compliance with basic salary requirements: Provide employees with minimum wages and benefits that meet or even exceed the minimum required by laws and regulations.
(6) Oppose bullying and harassment: do not force or coerce any unwilling person to perform labor services, and prohibit harassment, physical abuse, or threats.
(7) Provide a safe, hygienic, and healthy working environment: Continuously improve hardware facility standards and safety and health operating procedures, and actively construct a safe and hygienic working environment to prevent occupational injuries and diseases, and ensure labor safety and health.
(8) Create a happy workplace with work-life balance: use treatment of family members to promote health promotion activities and clubs to encourage colleagues to participate independently. Manage and analyze working hours and vacation status, reduce the risk of overwork, and implement the concept of "work-life balance".
(9) Support employee growth and career development: Plan training and development methods, provide diversified training channels and partial subsidies, encourage employees to voluntarily arrange, improve their professional knowledge and skills and to develop in the right place at the right time.
(10) Actively encourage employees to participate in public welfare and increase the influence of public welfare: uphold the spirit of "good for one family, good for all families" to encourage colleagues to participate in public welfare activities such as assisting community development and caring for the disadvantaged, and passing on the power of a positive and good society through action.
(11) Based on the business philosophy of honesty, transparency and responsibility, the Company has established integrity policies and internal rules and norms. We require employees to uphold the service principles of honesty and integrity and do not tolerate corruption and any form of fraud. The Company has also set up an occupational ethics mailbox (integrity@taisun.com.tw).
(12) We reinforce communication, information symmetry, and conveyance and response between employees via labor-management meetings, departmental meetings, and employee grievance mail taisunhr1999@taisun.com.tw. By doing so, we achieve the goal of effective problem solving.

5.1.5. Protective measures for working environment and personal safety of employees

(1) Occupational safety and health committee: In order to ensure labor safety and implement disaster prevention management, the Company establishes an occupational safety and health management unit in accordance with the Occupational Safety and Health Act and related regulations. It is responsible for the formulation, planning, supervision, and promotion of occupational safety and health management. Furthermore, it guides relevant departments to implement safety and health education and training, protection against dangerous equipment, emergency response procedures, disaster prevention drills, and work safety analysis. The Company has established an Occupational Safety and Health Committee in accordance with the law. The main management framework of the Committee includes personnel management, equipment management and environmental management.
(2) Hazard prevention and health promotion: implement various job safety promotion and inspections to strengthen the awareness of the hazards faced by plant colleagues and the correct attitude of safety protection. Handle health and safety seminars and publicity of hazardous work lists to strengthen the safety awareness of specific objects, and establish a safety education and training system to achieve the safety of all employees at work. Include the implementation of the 5S campaign in the unit performance appraisal to improve the working environment. Perform emergency response simulation exercises (fire fighting, water cutoff, and power outages) to improve the effectiveness of protections. Conduct regular monthly inspections of the environmental sanitation and public safety of foreign workers' dormitories to enhance the protection of foreign colleagues' housing rights. Formulate four major emerging hazard prevention plans in the workplace to increase the importance of labor safety and health care.
(3) Occupational safety management effectiveness: On-site health services such as plant physician and nurse are implemented. We also hire nurses to provide occupational health services and it is optional for our employees to add more check-up items onto the regular health check-ups, to improve the level of employee healthcare. In respect to employee safety management, we check and improve fire protection measures to comply with fire protection regulations, learn from industry TPM experience which is transformed into internal improvement motivation, and optimize the workplace to improve employee benefits and productivity. According to the

work attributes of employees, we provide regular education and training to ensure the personal safety of employees, such as firefighting first aid training, first aid personnel training, occupational safety and health training, plant safety training, etc.

(II) Losses incurred due to labor disputes in the last two years and as of the publication date of the annual report, the estimated amount and corresponding measures that may occur at present and in the future: None.

6. Cyber Security management

6.1. Describe the cybersecurity risk management framework, cyber security policies, concrete management programs, and investments in resources for cyber security management:

The Company has established an information security risk management framework and formulated an information security policy and specific management plan:

6.1.1. Cybersecurity management strategy and structure

(1) Information security organization and operations:

The Company's information security authority is the information department. There is also an information security management committee composed of personnel of the information department. Beneath them, there are information security task team, information security audit team, and emergency response team. These teams coordinate information security-related policy formulation, implementation, risk management and compliance audits. The top supervisor of the information security management committee reports to the Board of Directors on the effectiveness of information security management and information security-related issues and directions on a quarterly basis.

We implement the information security strategy formulated by the information security management committee to ensure that the internal personnel comply with information security-related guidelines, procedures and regulations. Furthermore, the information security management committee holds a review meeting at least once a year to go over and resolve the information security policy, implementing the effectiveness of the security management measures. The information security audit performs an internal audit every year, while the Company's audit department performs an information security audit every year. If there is any deficiency, it is required to propose relevant improvement plans and report to the board of directors, and regularly track the improvement results to reduce internal information security risks. The operation and execution of information security risk management in 2024 will be reported to the Board of Directors on 2024/11/12.

(2) Information security policy:

The Company responds requirements of internal and external factors concerning cyber attacks, regulatory compliance, manufacturer cooperation regulations, internal and external risk control audits, and so on. Based on ISO27001 and considering the Company's operating characteristics, consistent and appropriate information security system documents and control measures have been developed covering information-related management links. This includes policies, organizations, personnel, physical environment, network security, operation management, access control, development and maintenance, information security incidents, disaster drills, etc. According to the planning, implementation, audits and action management cycle, the applicability of the information security policy and protection measures are examined. ❶Additionally, the implementation status is regularly reported back to the information security management committee to further ensure the continuous operation of business activities and the stable use of information services.❷ Ensure the confidentiality, integrity and availability of the information assets in custody, and protect the privacy of personnel data.❸ Establish an information business continuity operation plan, and implement information business activities that meet the requirements of relevant laws and regulations.

(3) Specific management measures:

Type	Explanation	Related management measures
Authorization management	Management measures for personnel accounts, authorization management, and system operation behavior	Personnel account authorization management and review Regular inventory of personnel account permissions
Access control	Control measures for personnel access to internal and external systems and data transmission	Internal/external access control measures
External threats	Channels of infection and preventive measures	Host/computer update measures Firewall protection Virus protection and malware detection
System availability	System availability and handling measures when service is interrupted	System/Network availability monitoring and contingency measures for disruption of notification mechanism service/ Onsite/Offsite backup mechanism/Periodic disaster recovery drill
Personnel training	Personnel information security awareness training measures	Information security advocacy education required for newly reporting personnel Regular company-wide information security advocacy Social engineering drills

6.1.2. Cybersecurity risks and response measures:

The Company's information security management focuses on improving information security and stable operation,

enhancing internal information security awareness, and implementing various management operations, and actively participating in external information security organizations. We have joined the Taiwan Chief Information Security Officer Alliance, to help the corporate information security supervisor members grasp the information security policy, latest information security trends, reinforcing the information security protection energy.
The management consists of six items: information asset security management, personnel management and training, physical and environmental security management, computer system and network management, system access control security, and operation continuity. At Taisun, we continue to review and evaluate our information security rules and procedures and introduce new technologies to enhance endpoint protection and information protection, strengthen employees' information security awareness and social engineering exercises. By making this effort, we ensure the suitability and effectiveness of the rules.

6.2.Losses, possible impacts and countermeasures as a result of major cyber security incidents in the last year as of the publication date of the annual report, state the reasons if losses cannot be reasonably estimated:

No information security incidents occurred in 2025.

7.Important contracts

Contract nature	Parties	Contract start and end dates	Primary content	Restriction clauses
Engineering contract	Beaux Mooi	2024.10.18-2025.05.15	Renovation project of the 6F Taipei Headquarters Office at 6F, No. 50, Sec. 1, Zhongxiao W. Rd., Zhongzheng Dist., Taipei City	Total amount: NTD 74,300,000 (tax included)
Lease contract	Long Bon International Co., Ltd.	2024.09.20-2034.09.19	Renting the 6F Taipei Headquarters Office at 6F, No. 50, Sec. 1, Zhongxiao W. Rd., Zhongzheng Dist., Taipei City	Total amount: NTD 212,769,085 (tax included)
Technical service contract	SAP Taiwan Co., Ltd.	2024.05.15-2030.05.14	SAP system	Total amount: NTD 7,826,191 (tax included)
Technical service contract	SOE Technology Inc.	2024.08.01-2025.08.30	Development of ABAP program	Total amount: NTD 9,000,000 (tax excluded)
Technical service contract	SOE Technology Inc.	2024.08.12-2026.05.31	SAP S/4 HANA PCE system construction	Total amount: NTD 37,090,000 (tax excluded)

V、Review Analysis and Risk Matters Pertaining to Financial Status and Financial Performance

1.Review and analysis of the financial position - Consolidated Statements

Total equity	12,975,143	12,816,013	159,130	1.24

(I) The main reasons for significant changes (over 20% and the change amount exceeds NT$10 million.) in assets, liabilities, and equity in the past two years:

1. Current assets and other assets: Primarily due to the deposit of preliminary execution guarantees for litigation cases into non-current items.
2. Real estate, plant and equipment, and investment properties: Primarily due to the reclassification of idle or leased assets by the Company and its subsidiaries into investment properties during the period, and the sale of real estate by subsidiaries.
3. Other interests: Primarily due to the impact of the unrealized valuation of financial assets measured at fair value through other comprehensive income or loss.

(II) Impact: No significant impact.

(III) Future response plan: Not applicable.

Total equity	12,966,019	12,810,524	155,495	1.21

(I) The main reasons for significant changes (over 20% and the change amount exceeds NT$10 million) in assets, liabilities, and equity in the past two years:

1. Current assets and other assets: Primarily due to the deposit of preliminary execution guarantees for litigation cases into non-current items.

2. Real estate, plant and equipment, and investment properties: Primarily due to the reclassification of idle or leased assets by the Company and its subsidiaries into investment properties during the period, and the sale of real estate by subsidiaries.

3. Other interests: Primarily due to the impact of the unrealized valuation of financial assets measured at fair value through other comprehensive income or loss.

(II) Impact: No significant impact.

(III) Future response plan: Not applicable.

2.Review and analysis of financial performance - consolidated financial statements

Unit: NT$ thousand

Item \ Year	2025	2024	Increase (decrease) amount	Percentage of change (%)
Operating income	10,114,639	10,682,445	(567,806)	(5.32)
Operating costs	8,335,633	8,792,373	(456,740)	(5.19)
Operating margin	1,779,006	1,890,072	(111,066)	(5.88)
Operating expenses	1,359,230	1,272,098	87,132	6.85
Net operating income (loss)	419,776	617,974	(198,198)	(32.07)
Non-operating income and expenditures	374,312	263,416	110,896	42.10
Net income before tax	794,088	881,390	(87,302)	(9.91)
Tax income (expense)	(16,612)	(138,749)	122,137	(88.03)
Net income for the current period	777,476	742,641	34,835	4.69
Other comprehensive income or loss (net after tax)	37,928	(10,696)	48,624	(454.60)
Total comprehensive profit and loss for the period	815,404	731,945	83,459	11.40

(I) The main reasons for significant changes (over 20% and the change amount exceeds NT$10 million.) in operating income, net operating income, and net income before tax in the past two years:

1. Operating Profit: Affected by decreased operating revenue and costs, and increased operating expenses, primarily due to the closure of the aquatic feed division and the return to profitability in fiscal year 2024, reaching a near 10-year high, followed by a comprehensive salary increase for all employees starting in April 2025.
2. Non-operating Income and Expenses: Primarily due to gains from the sale of real estate by a subsidiary.
3. Income Tax Expense: Primarily due to the recognition of actual investment losses from the reduction of capital in a subsidiary.
4. Other Comprehensive Gains and Losses (Net After Tax): Primarily due to the impact of the unrealized valuation of financial assets measured at fair value through other comprehensive gains and losses.

(II) Impact on the Company's future financial operations: No significant impact.

(III) Future response plan: Not applicable.

Review and analysis of financial performance - parent company only financial statements:

Unit: NT$ thousand

Item \ Year	2025	2024	Increase (decrease) amount	Percentage of change (%)
Operating income	8,744,702	9,074,797	(330,095)	(3.64)
Operating costs	7,515,733	7,853,808	(338,075)	(4.30)
Operating margin	1,228,969	1,220,989	7,980	0.65
Operating expenses	961,270	812,123	149,147	18.37
Net operating income (loss)	267,699	408,866	(141,167)	(34.53)
Non-operating income and expenditures	503,195	447,220	55,975	12.52
Net income (loss) before tax	770,894	856,086	(85,192)	(9.95)
Tax income (expense)	1,962	(113,675)	115,637	(101.73)
Net income (loss) for the current period	772,856	742,411	30,445	4.10
Other comprehensive income or loss (net after tax)	38,913	(10,546)	49,459	(468.98)
Total comprehensive profit and loss for the period	811,769	731,865	79,904	10.92

(I) The main reasons for significant changes (over 20% and the change amount exceeds NT$10 million.) in operating income, net operating income, and net income before tax in the past two years:

1. Operating Profit: Affected by decreased operating revenue and costs, and increased operating expenses, primarily due to the closure of the aquatic feed division and the return to profitability in fiscal year 2024, reaching a near 10-year high, followed by a comprehensive salary increase for all employees starting in April 2025.
2. Income Tax Expense: Primarily due to the recognition of actual investment losses from the reduction of capital in a subsidiary.
3. Other Comprehensive Gains and Losses (Net After Tax): Primarily due to the impact of the unrealized valuation of financial assets measured at fair value through other comprehensive gains and losses.

(II) Expected sales volume and basis:

The Company's business operates in a mature industry that provides necessities for people's livelihoods. Sales volume will increase in line with population growth and economic growth. Based on expected future economic development and consumer demand, and considering the development trend of the food category, planned sales volumes for next year are estimated as follows:

1. The oil and fat business, including oils and soy flour, is expected to have a sales volume of 250,000 tons.
2. The food business, including ambient and refrigerated products, is expected to have a sales volume of 190,000 tons.

(III) Impact on the Company's future financial and business operations: No significant impact.

(IV) Future response plan: Not applicable.

3.Cash flow review and analysis

3.1.Analysis of changes in cash flow this year

Unit: NT$ thousand

Cash at the beginning of period Balance (1)	Annual net cash flow from operating activities (2)	Annual cash outflow (3)	Cash surplus (deficit) amount (1)+(2)-(3)	Contingency plans for insufficient cash position	
				Investment plan	Financial management plan
2,750,119	(181,273)	1,868,582	700,264	N/A	N/A

(1) Operating activities: Net cash outflow of 180 million, mainly due to income tax payments of approxin 105 million.
(2) Investing activities: Net cash outflow of approximately 1.2 billion, mainly due to the deposit of pre-lit security deposits for litigation cases.
(3) Financing activities: Net cash outflow of approximately 700 million, mainly due to the distribution of dividends.

3.2.The Company's measures to address insufficient cash and liquidity analysis

3.2.1. Contingency plans for insufficient cash position: No cash shortage this year

3.2.2. Liquidity analysis for the last two years.

Unit: NT$ thousand

Item \ Year	2025	2024	Percent increase (decrease) %
Cash flow ratio	(15.48)%	87.29%	(117.73)%
Cash flow adequacy ratio	(11.70)%	(0.17)%	6,782.35%
Cash reinvestment ratio	3.13%	8.00%	(60.88)%

Change analysis
(1) Cash Flow Ratio: This was mainly due to factors such as the decline in operating conditions during the period, increased inventory preparation due to the later Spring Festival holiday, and a decrease in accounts payable resulting from the company's shift from outsourced processing to in-house production. Therefore, operating activities resulted in a net cash outflow during the period.
(2) Cash Flow Adequacy Ratio: This was mainly due to net cash outflows from operating activities during the period.
(3) Cash Reinvestment Ratio: This was mainly due to net cash outflows from operating activities and an increase in cash dividends paid out during the period.

3.3.Analysis of cash flow for the coming year

Unit: NT$ thousand

Beginning cash balance (1)	Annual net cash flow from operating activities (2)	Annual cash outflow (3)	Cash surplus (deficit) amount (1)+(2)-(3)	Contingency plans for insufficient cash position	
				Investment plan	Financial management plan
700,264	606,719	(730,292)	576,691	—	—

(1) Net cash inflow from operating activities: The Company has maintained stable operations in recent years. For the coming year, after deducting relevant operating expenses, the net cash inflow from operating activities is expected to be NT$606,719 thousand.
(2) Expected annual cash outflow: It is expected that in the coming year, in addition to paying necessary expenses and distributing cash dividends, funds will continue to be invested in the purchase of additional equipment.
(3) Contingency plans for projected insufficient cash position and liquidity analysis: None.

4.Impact of significant capital expenditures in the most recent year on financial and business operations:

4.1.The use of significant capital expenditures and sources of funds: No significant capital expenditures.
4.2.Expected potential benefits: None.

5.Investment policy in the most recent year, the main reasons for incomes or losses, improvement plans, and investment plans for the coming year

Unit: NT$ thousand

Investee company Name	Main business items	Current income and loss of invested company	Investment gains and losses recognized in the current period	Main reason for the income or loss	Improvement plan	Future investment plan
Pin-Tai Distribution Enterprise Co., Ltd.	Oil & Fat food Wholesale and retail sale	241,354	227,216	Continue with operational fitness adjustment to reduce inefficient general expenses.	None	Continuing investment
Central Union Oil Corp., Ltd.	Soybean Product Manufacturing Processing and Sale	194,574	64,859	Reach economies of scale	None	Continuing investment
Taiwan Niko Mart Co., Ltd.	Operating chain supermarkets	9,663	3,245	Recognize investment gains and losses	None	None
Taisun (Cayman) Investment Ltd.	Investment	30,769	30,769	Recognize investment benefits	None	Continuing investment
Pioneer Traffic Co.Ltd.	Logistics delivery	168,308	21,826	Continued operation	None	Continuing investment

6.Risk analysis and assessment

6.1. The effect upon the Company's incomes (or losses) of interest and exchange rate fluctuations and changes in the inflation rate, and response measures to be taken in the future:

Item	2025 (NT$ thousand)
Interest expense	370
Exchange loss (consolidated)	(18,599)

6.1.1. Interest Rate Risk: As the Company currently has no bank borrowings, interest rate risk remains within a reasonable range and has no significant impact on overall net profit after tax.

6.1.2. Exchange rate risk: The Company's main raw materials are imported from abroad. Therefore, changes in exchange rates have a certain impact on the company. The Company makes staggered spot foreign exchange purchases to diversify risk, while coordinating these transactions with the maturity dates of its existing foreign currency debts and future cash flows for foreign currency settlement.

6.1.3. The impact of inflation on the Company's income and loss and future countermeasures:
According to an IMF report, global inflation in 2025 continued to show a downward trend, decreasing from 5.8% in 2024 to 4.1% in 2025, indicating that inflationary pressures caused by post-pandemic supply chain imbalances and energy price fluctuations have gradually eased. However, prices of major food raw materials such as soybeans and corn continue to fluctuate.

Nevertheless, with the government's efforts to stabilize financial order and maintain price stability, the domestic inflation rate remains within a manageable range. In addition, the Company has continuously worked to reduce production costs in recent years. Going forward, the Company will not only enhance product value through strategies such as product innovation and differentiation, but also continue to reduce costs to mitigate the adverse impact of inflation on its operations.

6.2. Policy regarding high-risk investments, highly leveraged investments, loans to other parties, endorsements, guarantees, and derivatives transactions; the main reasons for the incomes/losses generated thereby; and response measures to be taken in the future.

6.2.1. Engagement in high-risk investments or highly leveraged investments

The Company is mainly engaged in the food industry, and the board of directors strictly controls and strictly prohibits high-risk investments or highly leveraged investments.

6.2.2. Loans to other parties, endorsements, guarantees

(1) In response to actual operating needs, the Company has followed the relevant laws and regulations of the Securities and Futures Bureau to set up its Procedures For Endorsement & Guarantee to be handled in accordance with the law, At the same time, the company's audit unit is established based on the Regulations Governing Establishment of Internal Control Systems by Public Companies as issued by the Securities and Futures Bureau. Relevant systems are in place to conduct regular internal audit operations and submit audit reports to the audit committee.

(2) As of February 31, 2026, the maximum amount of funds lent to others is NT$0 thousand, the announced balance of funds lent to others is NT$0 thousand, and the actual amount utilized is NT$0 thousand.

(3) As of February 31, 2026, the Company's maximum endorsement guarantee limit is NT$0 thousand, the announced balance of endorsement guarantees is NT$0 thousand, and the actual amount utilized is NT$0. Future response measures will still be strictly controlled in accordance with relevant operating system regulations and actual operational needs.

6.2.3. Derivatives transactions:

(1) Transaction policy:

This is based on the "Procedures for the Acquisition or Disposal of Assets" stipulated by the company to engage in derivative commodity transactions based on operational needs.

(2) Main reasons for incomes/losses and response measures to be taken in the future:

The Company currently has no transactions involving any related derivative instruments, and therefore has no corresponding income, loss, or risk mitigation measures.

6.3. Future research and development plan and estimated R&D expenses:

The Company focuses on key R&D categories, including new product development, product health upgrades, functional products, and innovative technology research. It has planned short-, mid-, and long-term projects with a budget allocation of NT$66,147 thousand.

(1) For categories such as snacks, Chinese mesona, and beverages, the Company will focus on formula refinement and the development of products in line with flavor trends, planning product launches according to different annual timeframes. The Company will actively reserve new products to shorten development timelines and enhance the speed of customized services, in order to seize business opportunities.

(2) Enhance R&D capabilities by actively working on formula design and processing technology improvement tasks. For example: Additive-free series and new texture frozen shaping technology.

(3) Continuously strengthen the source management of food ingredients and additives to ensure the quality and safety of raw materials and finished products within the plant.

Traceability programs and quality assurance audits will continue annually to strengthen guidance and management of suppliers.

1.“2025-2026 New Product R&D Plan”

(1)Development of iced tea beverage series products.

(2)Development of pure tea series products.

(3)Research and development of the Jelly Drink series products.

(4)Development of the Cheers series products.

(5)Development of Sunkist series products.

(6)Development of snack series products.

(7)Development of aluminum can line series products.

(8)Development of Chinese Mesona series products.

(9)Development of additive-free products.

(10)Research and development of water series products.

(11)Development of fruit pulp tea series products.

(12)Development of beverage and edible oil product series for catering services.

(13)Development of Kaoliang liquor of Matsu Distillery products.

2. Current progress of the research and development plan:

(1) Chilled: The Bing Jeon Lemon Black Tea was upgraded with a new formula in April 2025, and the Iced Fruit Tea was upgraded with a new formula in May 2025.

(2) Room Temperature: The Bing Jeon Lemon Black Tea was upgraded with a new formula in April 2025, and the Iced Fruit Tea was upgraded with a new formula in June 2025.

(3) The additive-free room temperature snack series (peanut soup) was launched in May 2025.

(4) The chilled PET Japanese Sencha Fruit Tea was launched in May 2025.

(5) The chilled PET Double Pomelo Peach Black Oolong was launched in May 2025.

(6) The chilled IP Lychee Tea with Apple Filled Jelly was launched in May 2025.

(7) The chilled IP Grass Jelly Q-Balls with Black Tea was launched in May 2025.

(8) The room temperature Woo Tang Caffeine-Free Mesona Tea was launched in May 2025.

(9) Cheers - Peach Sparkling Water was launched in May 2025.

(10) New product series for the aluminum can line: Taisun Sparkling Lemon Black Tea, Taisun Sparkling Fruit Tea, Taisun Sparkling Grape Green Tea were launched in June 2025.

(11) Customized new product for the food service channel, frying oil exclusively for Two Peck, was produced in July 2025.

(12) Customized new product for the food service channel, Longyan Fried Chicken professional deep frying oil, is expected to be launched in May 2026.

(13) Customized new product for the food service channel, military-use soybean salad oil 18L, was introduced and produced in August 2025.

(14) New blended edible oil product, Taisun Light and Refreshing Blending Oil, was launched in June 2025.

(15) New pure edible oil product, Taisun Japanese Rice Bran Oil, was launched in January 2026.

(16) Enhancement of original imported edible oil products in original packaging, Taisun Pure Olive Oil, was launched in July 2025.

(17) Enhancement of original imported edible oil products in original packaging, Taisun 100% Extra Virgin Olive Oil, was launched in July 2025.

(18) Enhancement of original imported edible oil products in original packaging, ChefOil Rice Bran Oil, was launched in December 2025.

(19) Enhancement of original imported edible oil products in original packaging, ChefOil Pure Olive Oil, was launched in July 2025.

3. Expected R&D expenses: It is estimated that an additional NT$14,742 thousand will be invested in 2025.

6.4. Effect on the company's financial operations of important policies adopted and changes in the legal environment at home and abroad, and measures to be taken in response:

The Company's operating policies are governed by laws and regulations, and we always pay attention to important domestic and foreign policies and changes in laws. We provide these for management reference, consult relevant experts when necessary, and take appropriate response measures. In the most recent year and as of the printing date of the annual report, the Company has not been affected by major domestic and foreign policy and legal changes that affect its financial operations.

6.5. Effect on the Company's financial operations of developments in science and technology as well as industrial change, and measures to be taken in response.

Since projects operated by our Company fall within mature industries, they have seen no major technological breakthroughs in recent years and there is currently no major impact on the company's financial operations.

6.6. Effect on the Company's crisis management of changes in the company's corporate image, and measures to be taken in response.

The Company has always adhered to the philosophy of upstanding management, and externally we attach importance to integrity with customers. We strictly require employees to be self-disciplined internally and abide by the Company's internal regulations, and through various communication channels they should uphold the principles of open information and financial transparency. In this way, we enhance shareholders' understanding of the Company and recognition and support of the Company's business strategy. Furthermore, in case of emergencies, emergency response measures will be initiated according to powers and responsibilities to quickly resolve the corporate crisis. We will make preparations to prevent and control any potential risks that may be faced. As of the printing date of the annual report, the Company has not experienced any changes in its corporate image requiring it to manage a corporate crisis.

6.7. Expected benefits and possible risks associated with any merger and acquisitions, and mitigation measures being or to be taken.

In the most recent year and as of the printing date of the annual report, the Company has no plans for mergers and acquisitions.

6.8. Expected benefits and possible risks associated with any plant expansion, and mitigation measures being or to be taken.

Regarding capital expenditures invested by the Company, this mainly went to water treatment equipment, oil and fat warehouses and production lines, robotic arms, sterilization kettles for mixed congee, and so on. These expenditures are expected to increase production capacity and reduce operating costs. As the company's business revenues are stable, cash flow from operations is sufficient to cover short-term capital investment expenditures. In the future, we will always evaluate changes in the industry to update equipment investments for the sake of meeting business needs and reducing operational risks.

6.9. Risks associated with any consolidation of sales or purchasing operations, and mitigation measures being or to be taken.

The sources of the Company's purchases and sales targets have been disclosed in the previous chapters. In view of the future growth trends of the Company's industry, we will appropriately diversify, distributing future sales targets and purchase sources in order to maintain balanced and stable operating results, and the Company's continuous efforts shall strive toward these goals.

6.10. Effect upon and risk to the Company in the event a major quantity of shares belonging to a director, supervisor, or shareholder holding greater than a 10% stake in the Company has been transferred or has otherwise changed hands, and mitigation measures being or to be taken.

The composition of the Company's directors is stable and there have been no massive transfers of equity. Therefore, there is no major risk or impact on the Company.

6.11. Effect upon and risk to Company associated with any change in governance personnel or top management, and mitigation measures being or to be taken.

The Company has a professional management team, and the change in management rights will not damage the Company's various management and operational advantages. Other risks are still under evaluation.

6.12. Litigious and non-litigious matters:

1. Major litigation, non-litigation, or administrative dispute cases of the Company in the most recent year and up to the date of printing of the annual report that have been adjudicated and finalized or are still pending:

Major litigation cases currently pending are as follows:

(1) Intellectual Property and Commercial Court Case Shang-Su-Zi No. 16 of 2023, commercial matter regarding confirmation of the invalidity of a Board of Directors resolution, etc.: Summary: Long Bon International Co., Ltd. filed a lawsuit requesting confirmation that the resolution of the Board of Directors of Taisun Enterprise Co., Ltd. on December 2, 2022 regarding the disposal of its shareholding in Taiwan FamilyMart Co., Ltd. is invalid.

Recent progress:

i. The main contentious procedural matters of the court session on March 17, 2025: Is there any confirmation of interest? Whether the additional disputed matter raised by Long Bon does not comply with the provisions of Article 255, Paragraph 1, Subparagraph 2 of the Code of Civil Procedure? Primary claim: Whether Long Bon's assertion that the Board of Directors resolution of Taisun Enterprise Co., Ltd. dated December 2, 2022 is invalid has merit? Alternative claim: Whether Long Bon's assertion that the aforementioned Board of Directors resolution involves illegality in the convening procedures, resolution methods, and content of the resolution, and its request to revoke the disputed Board of Directors resolution based on such defects, has merit?

ii. The judge declared the preparatory proceedings concluded and instructed all parties to submit their briefs on arguments by April 30; the hearing is scheduled for July.

(2) Taiwan Taipei District Court Civil Case Zhong-Su-Zi No. 853 of 2023:

Summary: Tai Shan Enterprise Co., Ltd. resolved at its Board of Directors meeting on May 5, 2023 to acquire a 40.39% equity interest in JKO FinTech Co., Ltd. for NT$3.6 billion. The transaction was previously questioned on multiple grounds by the Taiwan Stock Exchange Corporation, and the FSC also imposed a penalty of NT$960 thousand on the former Chairman, Chan Ching-Chao, for violations of the Regulations Governing the Exercise of Powers by Audit Committee of Public Companies and the Regulations Governing Procedure for Board of Directors Meetings of Public Companies, among others. The request for JKO FinTech Co., Ltd. to return the investment fund via the previous letter was unsuccessful. As an precaution and to protect the interests of the Taisun Enterprise Co., Ltd. and shareholders, Taisun Enterprise Co., Ltd. petitioned JKO FinTech Co., Ltd. to return the investment fund of NT$3.6 billion.

Recent progress:

i. Oral arguments were held on April 15, 2025. The main issues in dispute are: (1) whether the share purchase agreement is valid; (2) whether Taisun Enterprise Co., Ltd. is a bona fide third party; and (3) whether the Board of Directors resolution of Taisun Enterprise Co., Ltd. is invalid. Taisun Enterprise Co., Ltd. previously sent an inquiry to the Investment Commission regarding the review result of the JKO FinTech share investment; the Investment Commission has rejected the JKO FinTech share investment, and JKO FinTech is expected to resubmit its application.

ii. Judgment was rendered on May 13, 2025.

(3) Criminal case with an attached civil action, Jin-Zhong-Su-Zi No. 12 of 2024:

Summary: CGS International asserts that it acquired the construction land at Land No. 325, Wende Section, Neihu District, Taipei City on May 16, 2013. Its Chairman, Teng Kuang-Ming, allegedly violated the Company's internal regulations by selling the land to Long Bon, causing CGS International to suffer damages of approximately NT$251.79 million. Accordingly, it filed a claim requesting that Long Bon bear liability for damages.

Recent progress:

As this case is a criminal case with an attached civil action, the criminal court has not yet ruled to transfer the case to the civil court. Upon the criminal court's ruling to transfer the case to the civil court, counsel will be appointed to handle the subsequent litigation matters.

3. Major litigation, non-litigation, or administrative dispute cases of the Company's directors, General Manager, de facto responsible persons, major shareholders holding more than 10% of shares, and subsidiaries in the most recent year and up to the date of printing of the annual report that have been adjudicated and finalized or are still pending: None. (Judicial Yuan Judgment Search System)

6.13. Other significant risks and corresponding measures

Information security risks and corresponding measures

The Company has established management procedures for data center management, system recovery planning and testing operations, and information security inspection operations. In accordance with the aforementioned Electronic Data Processing Procedures, the Company's Internal Audit Office conducts periodic audits of the Information Department. The CPA firm also conducts annual audits. Establish principles in compliance with the information security management system to ensure the achievement of the three objectives of information confidentiality, integrity, and availability. Promote the strengthening of information security management, establish a secure and reliable electronic information operating environment, and ensure the security of the Company's information systems. Enable prompt reporting and the implementation of relevant emergency response mechanisms to restore normal operations in the shortest possible time and ensure the sustainable operation of the Company's business.

The Company regularly uses the "Startup Awareness Platform" to educate employees on information security concepts. "Utilize email source authentication mechanisms" to reduce the risk of phishing emails.

7. Other important matters: None.

VI、Special Items of Record

1. Information on Affiliated Companies

In accordance with the regulations of the competent authority, our company has fully disclosed "related information about related companies" on the Public Information Observation Station, including organizational charts of related companies, basic information of related companies, information on shareholders of those presumed to have a controlling or subordinate relationship, information on directors, supervisors, and general managers of each related company, the industries covered by the overall business operations of related companies, the operating status of each related company, and consolidated financial statements of related companies, etc. The methods for accessing this information are as follows:

(1) Public Information Observation Station http://mops.twse.com.tw > Basic Information > E-books > Related Company Financial Statements Section, Financial Reports.

(2) Our company's website https://www.smct.com.tw > Investor Section > Financial Information > Financial Reports.

2. The status of private placements of securities in the most recent year and as of the printing date of the annual report: None.

3. Subsidiary holdings or disposals of the Company's stock in the most recent year and as of the printing date of the annual report: None.

4. Other necessary supplementary explanations: None.

5. During the most recent fiscal year or the current fiscal year up to the date of printing of annual report, if any occurrence of any event which has a material impact on shareholders' equity or securities prices stipulated by Article 36, paragraph 3, subparagraph 2 of the Securities and Exchange Act: None.

Taisun Enterprise Co., Ltd.

Chairman: Liu Wei-Lung
